Subject: 2023/3361 (Vida Reid) — Response to Direction (31 Oct 2025); Application for Interim Pause and Targeted Production/Affidavit Orders

Dear Registry,

1. I refer to the Direction dated 31 October 2025. It presently shows a due date of 29 September 2025. I respectfully seek a short nunc pro tunc variation to regularise that clerical anomaly and proceed on the timetable proposed in my Response (filed together with this email). ￼

2. Interim pause sought (form-agnostic): I, Vida Reid seek a temporary pause while narrow verification of key facts are completed. I do not insist on form — either a stay of operation of the decision or a short adjournment achieves the objective. Please note the confusion around the terminology used for “STAY” is simply a by-product of the terminology being used possibly incorrectly by the respondents representatives in previous iterations. Please note I do not currently have legal council.

3. Targeted production + sworn evidence (named deponents): We ask the Tribunal to exercise its case-management and production powers to require:

• Australian Border Force (ABF) such as Mr. Julian and his colleagues at — Perth International Airport, 25 September 2024:

(a) Production of records showing any alerts/taskings/watchlist entries or external prompts that led to the stop of Mr and Mrs Reid; and

(b) Affidavits from:

* The ABF officer identified in Ms Reid’s affidavit as “Julian” (full name/position to be identified by ABF), who was among the officers that stopped the family, and who can address the statements made to them at the gate; ￼ ￼

* The team leader/supervisor on duty for the OSCG/airport unit for 25 Sep 2024; and

* The ABF officer who authored/signed the ABF reply dated 14 October 2024 to Hammond Legal (to exhibit the underlying search/examination records and device-handling chain). ￼ ￼

By way of context, Ms Reid’s affidavit records the Perth Airport stop on 25 September 2024 and that officers indicated they were acting due to NDIS/NDIS Minister directions to search the Reids “every time” — a point central to whether there was in fact an ongoing NDIS-related action. ￼ ￼

• NDIS Commission — Visit to Ms Virginie Fanny-Dulloo’s residence, 7 January 2025 (~9:32am):

(a) Production of attendance logs, investigator notebooks, authorisations and any records of that visit; and

(b) Affidavits from:

* Mr John Maloney (named by Virginie during the immediate aftermath call) addressing his attendance, words spoken, authority relied on, and purpose of the visit; and ￼

* The female investigator who accompanied Mr Maloney (identity to be provided by the Commission) addressing the same topics.

The date/time and participation of Mr Maloney are drawn from Ms Reid's affidavit (call at ~9:32am, 7 Jan 2025, with follow-up video call at ~10:39am). ￼ ￼

4. Why this matters to interim relief: These narrow verifications go directly to the truth of the Respondent's position that there is no ongoing investigation/action involving the Reids. They also bear on proportionality: the Commission's internal review reduced the ban to three years, expressly to match the expected duration of court proceedings and contemplated revisit/variation or revocation on determination. Those proceedings have concluded. This strongly supports a short interim pause pending the targeted evidence above. ￼ ￼

5. Severance/staggering: Given issues unique to me, I seek severance of 2023/3361 from 2023/4494 (FFG) and Mr. Reid's case or, in the alternative, staggered timetables, so the pause/production issues can be determined for me without prejudice to FFG and Mr. Reid's case.

6. **Clarification regarding "on the papers" consent**
At the previous directions hearing, I was placed on the spot and asked whether I would agree to the matter being determined "on the papers". As a self-represented party, I was not provided with any explanation of what that meant in legal or practical terms, nor afforded any time to consider the implications or seek advice before responding. I now understand that such consent would allow the Tribunal to decide the matter solely on written material, without a proper opportunity to clarify critical evidentiary issues or to pursue subpoenas and production orders directed to the Australian Border Force and the NDIS Commission. Having realised the significance of this, I wish to make it clear that I do **not** consent to the matter proceeding on the papers and respectfully request that any determination occur only after these issues have been properly ventilated in an oral hearing.

7. On the papers: **I do not** consent to determination on the papers at this stage due to the live factual disputes flagged above. ￼

Kind regards,
Vida Reid (Applicant)
