Subject: Levi's Invoices From Forward Focused

Good afternoon,

We have received the following invoices for Support coordination from Forward focused. As, it has been reiterated multiple times that Levi did not have any funding allocated for support coordination in his previous NDIS plan.

The invoices so attached and claimed cannot be processed and consequently paid.

Services provided during the duration of the old plan cannot be claimed under the new plan.

I have serious concerns about the reasonableness of the invoices attached:

1. invoice no: 0144- Line item 07- There is no funding provided for Support coordination or related travel- Could you please clarify why this service was provided in light of the fact that there was no funding for the same.
2. Invoice no NDIS- 000000066-1: Line item no- 01_741_0128_1_3: Could you send us a separate invoice for just this line item. Levi's core funds were exhausted and hence there are no funds available for paying this. I am happy to send this to NDIS for approval with a valid description highlighting why the service was provided despite the fact that the funds had been exhausted.
3. Invoice 0226: Again, provider travel for Support coordination has been charged which is not available line item in the previous plan.

Could you please rectify these issues and send revised invoices with only approved line items.

Kind Regards,

Zoey He

Subject: FW: Levi's Invoices From Forward Focused

Good Afternoon,

Thank you for raising your concerns with us and everyone else in one email.

I will gladly educate everyone here on the ACT and NDIS guidelines for clarity and transparency.

The guidelines are a nice to follow nt a must follow. The act on the other hand is whatis law and inn the act and also line items which you should know as a plan manager is written that a participant does not necessarily need to have support coordination in their plan for a support coordinator to build up their capacity and there are 2 codes which can be used form Core and CB for this purposes. I will let you go do your homework and find these line items yourself.

Malika is new to her role and just like any human being has made an error with only the code and line item she used. No mistakes has been made in the hours, dates and work completed.

First of all, I would appreciate as professionals int he sector if you could pick up the phone and give us a call to clarify your query or concern and provide us with a opportunity to explain this to you as we would to you

And have done so in the past.

There has been absolutely no mistakes made. We do not only provide support coordination just like I am aware you subcontract OT's such as Roya to conduct FCA's for participants that you do plan management for which is also a concern to us as it is a conflict of interest.

I am aware of this as we hired Roya on a full time contract with us and she disclosed to us what you do which raised red flags with us.

We provide other services such as support worker. In this case the invoice attached is also for support worker Leanne Osborne who has been attending to Levi to which we also sent without charging until a new plan comes into affect as Levi did not have any fuds available but we continued to support the family during this hard time. I didn't see you putting your hand up to be out of pocket and send supports their way during the hard times. Your comments are without facts and knowing the background and borderline offensive. I suggest moving forward you get your facts right before jumping to allegations and accusations.

I am proud to run a participant focused business. Should you like to discuss the matter further my details are below.
