BEACONSFIELD WA 6162

Total Hours 79 hrs 15 minutes
Total Amount $6,306.40

Date	Created By	Duration / KMs	Contact Type	Subject	Case Note	Total
29/10/2021	Vida Reid	4 hrs	General Notes	PBS letter of support	PBS letter for Andree Kemp	$260.36
28/10/2021	Michelle Richardson	15 minutes	Phone Call / SMS	Phone call to Andree	SC Michelle called Andree regarding the service agreement, no answer Michelle sent a text message requesting call back.	$142.75
26/10/2021	Michelle Richardson	15 minutes	General Notes	SMS to Andree	SC Michelle sent Andree an SMS to request that the service agreement be signed. Michelle asked of she would like to service agreement sent to her or would she like to come into the office to sign the service agreement.	$16.27
25/10/2021	Michelle Richardson	15 minutes	Phone Call / SMS	Phone call with Andree	SC Michelle called Andree to introduce herself as a new support coordinator. Andree advised that nothing had been done for her for months and was too unwell to talk on the phone and terminated the call.	$16.27

22/10/2021	Rachael Thomas	30 minutes	General Notes	Phone call with NDIA Re Review	Spoke with NDIA regarding the rescheduling of the review. SC Rachael and Shadi both spoke with Toni from NDIA, as she explained that a review date and time has been set for the 29th October at 1pm. Discussed the scenario around the previous atempted review. Rachael's phone number was given and asked to be included into the meeting on the day. Consent form wil need to be signed and sent to Toni at the NDIA on her email.	$32.55
19/10/2021	Rachael Thomas	1 hr	General Notes	NDIA conversation regarding review	Amanda (Nurse) contacted Terri to have a chat regarding the upcomong review. SC Rachael explained that Terri is no longer here and that we would like to reschedule the review so that we can get the best plan for Andree and act in her best interests. Amanda (Nurse) explained that the NDIA was on the line and included myself and Shadi on the call. As the NDIA planner began to talk, Andree started screaming that she was not going to allow a man to talk over her. She became abusive and made a racist comment telling the planner to learn to speak English. The planner professionally explained that he would not be subjected to her abuse and terminated the call. The planner then called Rachael to explain that the review had initially been declined as an s100 as the request had no justifying information to warrant an increase in funding. SC Rachael explained that it should have been an S48 that was initiated due to a change in circumstances, in that a FCA has been completed and there is a need for exploring SIL or other suitable houusing amongst other things. SC will prepare infrmation and gather reports to justify an S48 - to gain funding for SIL/housing. The NDIA will be in touch with a date.	$65.09

19/10/2021	shadi Norouzi	1 hr	General Notes	receiving a call from NDIA	NDIA called today and it was a meeting with Andree for S100 as has been requested, first of all when Warron wanted to explain and discuss about the plan Andree raised her voice and shouted on the phone meeting that she did not want a support of any male person and although the NDIA rep behaved very professionally and wanted to calm her down but she replied and spoke very aggressively with NDIA rep and stated to him you 'd better speak English although the NDIA rep was speaking very professionally, however Andree spoke very abusive and aggressively could be helpful if we applied for S48 instead S100 to have a better outcome. the phone conversation was ended and again NDIA rep called to have a further discussion regarding Andree's case. the result of the meeting is we need more evidence from Amanda who is the nurse regarding Andree 's situation and SIL and lack of informal supports and more complex issues that Andree is involved as an evidences to apply for S48	$65.09
19/10/2021	Rachael Thomas	15 minutes	General Notes	text to Andree	SC Rachael attempted to call Andree 3 x this morning to explain the need to reschedule the review, so that we can get the very best plan for her. A text was sent explaining that SC Rachael (and Vida) would would take of this and ensure that it was all in Andree's best interests.	$16.27

18/10/2021	Rachael Thomas	1 hr	General Notes	Call to Nurse	SC contacted Nurse Amanda to gather information regarding Andree's review meeting tomorrow. Lengthy discussion was held around the type of supports required and the assessments pending. Diagnosis of Munchousen's may be incorrect, instead it is now thought that it may be early onset dimentia. A cognitive assesment referral has been sent through as well as a pyschological assessment. Lack of informal support - the need for 24/7 care especially at night - needs an evening shift. Daughter lives in Harrisdale (but has her hands full). Currently self-medicating , as well as taking Methadone - this places her at severe risk Has started self catheterising - which has led to numerous UTI's and infections. SIL may be required - so that she can be supported. Preferably housed closer to her daughter.	$65.09
18/10/2021	shadi Norouzi	15 minutes	General Notes	Support Coordinators Discussion For Andree's Case.	SC Shadi and Rachael had a session together regarding cognitive assessment referral of Andree and her plan goals and the type of her disability has been reviewed.	$16.27
18/10/2021	shadi Norouzi	15 minutes	General Notes	Sent Text To Andree Regarding Her Plan Review	SC sent a text to Andree regarding tomorrow's app as she did not answer her phone per previous contacts.	$16.27
18/10/2021	shadi Norouzi	15 minutes	General Notes	unsuccessful contact	Shadi SC called her to touch base with her and confirm her app tomorrow and discuss about her plan but not able to reach her.	$16.27
18/10/2021	shadi Norouzi	15 minutes	Phone Call / SMS	call to Andree	SC Shadi tried to contact her regarding her appointment tomorrow but not able to reach her and Director advised she will do follow up regarding her.	$16.27
13/10/2021	Terri Roberts	15 minutes	Email	Wheelchair	** Large Note printed below.	$16.27

Hi Julie,

Can I please request the direct details of the Planner as the call centre have advised 3 times with receipt number attached, this is information they are unable to give me.
In my option, I don't think teams would be the correct format to conduct planning meeting on with someone who is in early set dementia with possible cognitive impairment to access the meeting via teams with codes and number to enter to access the call.
Receipt number: 7003037198

Due to the complexities of this upcoming review, I require the details of the planner to relay back and forth with reporting.
Can you please provide this information in benefit of Andree's upcoming review?

Good Morning Ladies,

I have spoken with the appointed registered nurse and Inge this morning via phone regarding Andree Kemp.
Andree Kemp as upcoming review today and I will ask for the 14 days grace period for this plan approval to ensure we have enough reporting behind us to advise the NDIS of the complexities of this participant.

I have created a referral form in hope for urgent report from Yael, as discussed with Inge this morning - you are a fantastic clinical psychologist with extremely detailed reporting. With the high needs of this participant we need to link her to very experienced supports to get her out of the cracks she has fallen in too. Andree is only diagnosed with Amputee in the NDIS system. Andree has symptoms of early set dementia.

Can I kindly request the below -
Psychiatric Genetic Assessment / Cognitive Assessment

I have attached the NDIS referral for this to be conducted and referral for requested Clinical psychologist Yael to take this case on.

Thank you ladies, hopefully we have some outcomes for this Participant who is in need of people like you!

Hi Terri
I've spoken to Andree re cancelation of services and she denied having told Tamara to cancel our services. While I was happy to cease services it's taken a lot of hard work to gain Andree trust over the last few months and understand her medical needs which are complex as I believe the Psychosis or confused state and memory lapses could be due to early onset dementia. Andrea suffers from paranoia and aggressive outbursts and then extreme remorse as she realises her confusion .She thought she had a conversation with her carer on Friday but in actual fact she refused to open the door and never spoke to the carer at all. Tamara was also present when the carer told Andree I was visiting and failed to correct Andree when she accused me of arriving unannounced and accused Connie of letting me into the house when it was Tamara who let me in not Connie . This shows Andree confusion and state of mind. As well carers report that the house is in a state in the morning even after they leave the house spotless at night. Andree does not sleep as she complains of the neighbours keeping her up at night. But I am in the process of placing carers with her until midnight as she refuses to have cares all night which I believe she requires as she has had multiple fall while unattended . I believe a Psycho geriatric cognitive assessment by an OT needs to be done to assess her cognitive state will help us understand her care requirements. As Andree has trust issues this process may take a while but I believe I've established a relationship close enough to have the discussion with Andree.

SC stated the current independent Tamara needs complete understand of Andree's barriers and memory loss. This puts Andree at risk with ceasing services. Amanda advised Andree will require a guardian due to the complex needs SC agreed. SC requested everything through for Andree today by COB for upcoming review	$32.55

10/09/2021	Chloe osborne	30 minutes	Phone Call / SMS	Call and Txt Msg regarding Cease & Respite	Messaged Andree regarding our phone call in the morning, I messaged Andree explaining that if she would like to cease her services with Amanda, she needs to reply to the message I sent confirming it in writing, I then also asked her to send through dates that would suit her for Respite. She called me back and I missed her call but I called her back after and her support worker, Tamara answered the phone. Tamara explained that Andree couldn't talk as she was upset, but Tamara explained to me that Andree was worried that if she ceased her services with Amanda that she would lose her wheelchair. I told Tamara that I would speak with Terri and see what will happen regards her wheelchair if she ceases services. I spoke with Terri and Terri spoke with Amanda and then Terri explained the situation to me Terri advised me that Andree would be able to keep her wheelchair and that it would come from the plan managers. I then explained this in a message to Andree and that we will still need to get confirmation from her in writing so if she could just reply to my text message the cease of service with Amanda can be processed.	$32.55

10/09/2021	Terri Roberts	30 minutes	Phone Call / SMS	Call with Andree	Called Andree back from a missed call this morning, ask her if there was a reason for her call, if she needed to discuss anything. Andree explained to me that she is not happy with the support workers that Amanda is providing her with. Andree said that the support coordinators are irregular and often late due to personal reasons. She explained that she believes the support workers are bad mouthing her and don't want to work with her anymore due to an incident that happened in public where she was apparently horrible to a person in public, Andree claims this did not happen. However Andree explained that she loves her support worker given to her by Vida. She said that her and Tamara get along really well. Andree said there was an incident a few weeks ago where she fell out of bed and called Amanda, Amanda's partner answered the phone and apparently got angry at Andree for being out of bed and then hung up on her. Andree said that her other support workers apart from Tamara have damaged thing in her home and left mess around when it should have been cleaned. Such as spilt milk, no rubbish taken out and her disposable underwear was not being disposed of. Andree expressed to me that she is feeling very depressed and sick and she no longer see's the point. I asked Andree if the dates 18/9-21/9 would be good for her to go on Respite with Tamara, Andree's birthday is on the 19/09 so she is unavailable as her family have planned something	$32.55

Hi Lee,

This bill is a bit high. Regarding the joy stick, this will need to be on another quote for this to be processed as a small amount is left in the repairs of Andree's plan. We could bill the joystick from another area of the plan for payment as there is not enough in the current plan.

Can you please separate the invoices?

Thank you ??

Hi Vida,
Sorry to bother you with this, but I had to promise Andree to write to you in her behalf. She hopes you can find more support workers like me, she said. A bit older and more mature. She said that Amanda keeps sending young girls who don't have good working ethics. I asked her to write to you personally but she said, that you usually never reply is she writes to you directly and that you will listen to me more ??. Well the problem yesterday afternoon was that there was no support worker coming for the afternoon shift because Amanda couldn't provide someone that Andree would be happy with. So when I left her 3.45pm and was on my way home she asked me to come back and do also evening shift because she just realised she has none to take her to shops (although we just came home from shops). So I was there 10 hours all together, but I cannot do that every Monday.
To make the story short she would like you to find some reliable, mature support workers for her. She believes you will do better job than Amanda.
I feel sorry for her and her situation, although I well know that it's very hard for you guys. Thank you and have a really good day, Tamara Zekir Lamont

Hi Vida,
Andree fell of her toilet in early morning hours (around 6am) and bruised her right wrist and left shoulder. She asked me to inform you about the accident, saying that support worker's job is also to inform support organiser about such accidents. She said it happened again this time because there is no support handle next to the toilet. She had already asked NDIS to install it. I hope you can help.

Another thing I would like to mention is that she told me that she was supposed to go to holiday somewhere near Busselton with Christina for a couple of days, but now she asked me if I could take her.
I haven't done that before so I am wondering what that looks like. She would like to go for 4 days and she said that you are going to make a booking. I would just need a. It more info to be able to make a decision.
Thanks,
Tamara Zekir Lamont

Thank you Lee for trying to fit us in, unfortunately I have other clients to see from 3pm onwards.

My next availability is 1st October onwards as I am also fully booked. In the meantime, I can liaise with Andree about the option of the joystick type that you needed confirmation about Lee. Are you able to send me photos of the different types for us to show Andree?

I hope we can finalise an appointment in October that all parties are available.

Kindly advise a better appointment time and we can confirm back with you, thanks.

Subject: Andree Kemp

Hi Terri
This is a sequence of events that have taken place with Andree Kemp which has again seen her behaviours cause extreme distress to staff with myself needing to make multi visits to her residence.
Thursday 19/08 I went out to Andree Kemp and recatheterised this was the first time I was allowed to recatheterise Andree Kemp , I successfully inserted A 16 Ryles catheter which went in with no problems. Andree has been afraid to allow anyone to do this procedure in the past And has self catheterised on numerous occasions when her catheter has come out .. While there Andree asked me to file the enteric coating off a brown tablet as she was allergic . which I struggled to do and got her to do it herself. She took the tablet and I did not see her take anything else before I left the house. I received a frantic call from the carer Chanelle Brand at 7.30 saying she was taking Andree home as Andree was falling asleep and had just spilt her coffee all over herself and in the car. She stated that Andree had taken along time to purchase her coffee at the Macdonald drive through as she kept falling asleep in the drive through . This as well as abusing the staff is a common behaviour of Andree. Which Andree denies. The carer took Andree home and I received a call from Andree complaining she needed to do her grocery shopping as she didn't have food in the house . This is untrue as Andree shops daily and the cupboards and fridge are full of food. The support worker was firm and insisted Andree needed to go to bed . Andree had her phone on while her conversation was in progress so I was able to listen in. The support worker told Andree she was leaving and Andree was awake and talking to her . The support worker called me to confirm she had left and Andree was still refusing to get into bed which I could hear as Andree phone was still on .At 10.30 pm I received a call from Andree saying the support worker had left the doors open and she was asleep with the doors open and Charlotte was outside when she woke and she rambled on about until she fell asleep on the phone about 11.20pm. She called again at 2.30 am and my husband answered and she said she was in the electric wheelchair in the lounge and the battery was flat. That she call by mistake as she was going to call the police . My husband told her to call the police as they were closer as we are 40 min drive from her . My husband ask why she was awake in her wheelchair at that time and she got very angry that her questioned her. She went on about her rights . Then she put the phone down and called back sayin

g she was stuck in the wheelchair and put the phone down . My husband woke me and we went to Andree as she didn't answer any calls there after . We called Christina to meet us at Andrea house as she had key access . We arrived at 4am as the ambulance was leaving we stopped the ambulance and spoke to the attendents who asked us if she was on any drugs I told them methodone and they said she had told them she wasn't on any schedule meds . They commented that that's why her eye response was sluggish. We went to the door and called Andree who was happy to see I had come out to her when she called . Christina arrived while I was inside .We had a long chat about her mental state and she stated she wasn't sleeping . That she was feeling unloved and abandoned . I said that we should work towards her getting a social life and making friends As well that I would get information about the C3 church so she could attend and maybe make some friends. We spoke about her behaviour towards staff and that she speaks negatively about everyone who is there to help her I asked her how she wanted to move forward in a positive light as the negativity was having a bad effect on her mental health . We spoke about her past abuse by the people close to her mother physical and her sexual abuse by someone she loved and trusted and the effects this was having in her unable to form relationships and using her fear to take back control by firing her carers and the negative effects this was having on the carers as well as herself . We spoke about her love for praise and worship and the stark difference between the two personalities she portrays. Christina and I got her into bed and left the house .

I called to check on Andree in the morning and she was in good spirits .I also reinformed our conversation which she appeared to remember.

On Friday Andree did not have afternoon Support as I had cancelled this as she had engaged new support independently When she called to say she had no support I arranged support immediately which was Andree door in the hour. When the support got in Andree went on a tirade about myself and the staff. The support asked her to stop and refused to stay if she continued to insult the company and staff. Kelly felt she could not support Andree any future and tried to leave . Andree followed her and parked her wheelchair behind the car and refused for the support to leave .

I again drove to the house and supported Andree who was disheaveled and we again spoke about her mental health her past trauma and the affect it was having on her relationships with her care staff She agreed she needed help with her mental health .We spoke about her medication supply and she said she used her current doctor as the local

Fremantle Family Clinic did not prescribed Schedule 8 drugs and she was on Clonazepam and Tapentadol.I told her that she had been through 9 carers in under 2 months and there cant be a problem with every person except her that she needed to form relationships with her support and teach them to care for her needs as all needs are specific to the participant .

All through our conversation Andree cried with no tears but did appear in a poor mental state with lack of I bought her a pizza for dinner ensured she was safe and in a better head space before I left.

I checked on Andree the next day and she was in better spirit.

I hope this gives you a indication of Andree mental health and the effect its having on her care staff . They don't like going to her house as it affects their mental helps as she is very abusive and negative .

I believe Andree is in urgent need of a medication review and Psychological evaluation ASAP and receive the necessary mental help she requires.

Regards

Hi Amanda,

With this report below, can I kindly request you send this to a mental health clinic for review? As a RN this would be valid for a referral, please correct me if I'm wrong. Let me know and happy to look in to this for you ??

In regards to the new support worker Tamara, I will check in with her tomorrow and ask why she never shown up for her Friday shift without anyone's knowledge.

Thank you again,

Good Morning Terri,

RE: Andree Kemp

Thank you for contacting us in relation to your concerns surrounding how your complaint was handled by the staff member from the Internal Reviews team. Please accept my apologies for the delay in our response.

Terri, I have passed on this feedback to the relevant management to discuss this with the staff member involved. Please be aware, the Complaints Team do not have the delegation to determine whether the documents that you have provided are sufficient enough. Based on the information that has been provided, it appears that in addition to the hospital discharge letter, a letter from a medical practitioner to report on what the diagnosis is will be required.

I have escalated this to our National Delivery team to request that you are contacted by a Senior Planner to discuss your concerns further. Please note, the NDIA has a range of staff from many different backgrounds. Staff are provided with appropriate practice guidance to assist with working with participants. I apologise for the upset and distress caused. It is not the NDIA's intention to communicate with a participant or their family and providers in a way which will upset or cause any distress. The NDIA takes this feedback seriously and relies on feedback to identify what is working and what can be improved. The NDIA has a strong commitment to learning from the experiences of people and the feedback you have provided.

Terri, if you are unhappy with the way your complaints have been handled by the NDIA, I would encourage you to make contact with the Commonwealth Ombudsman. More information can be found at: http://www.ombudsman.gov.au/How-we-can-help/australian-governmentagencies-and-services/national-disability-insurance-agency.

Once again, thank you for raising your concerns with us and I apologise for the upset that this has caused.

Good Afternoon,

I find this is a breach of privacy and not a good procedure for complaints as you have forwarded my complaint to the person that I'm complaining about.
Is this the procedure that NDIS follows with investigations? If so, this is entirely and utterly wrong.

Can the complaints team please look at the below. As much as I respect Julie's opinion, the hospital discharge letter states and confirms a diagnosis of Munchausen's syndrome within the discharge letter. This is enough evidence that Andree Kemp has this diagnosis and disability hence why they've included it in their letter otherwise it would not be there recorded in the first place. This is medical evidence.

This person is self harming on a daily basis and has thrown objects at support workers and has placed others at risk. She has chewed through 6 providers and 16 support workers in the last 3 months. She has also refused to pay some of her supports.

Good Afternoon,

Please see below email regarding concerns with my participant Andree Kemp.
We have new information backdated to 2019 which states other forms of disabilities that need to be added to Andree's secondary disability in the NDIS system. Current supports are unable to assist with this disability as this has not been lodged or advised.
Andree is taking medications, that she is refusing to advise of and putting herself at risk and other workers around her. Andree has put her self at risk including overdoes off medications, I have been one to witness this which was advised to the planner and NDIA.

Please see email attached sent to the planner 9/08/2021.
I sent this email through to the planner Julie Jones. I was advises the information gathered is not sufficient enough. Can I please have a response in to the why?

The discharge paperwork from 2019 states in black in white, the current disabilities that Andree Kemp has been diagnosed with. We as providers, are UNABLE to provide a service and UNABLE to educate the support workers attending, around the rawness of this condition and how to capacity build to receive the outcome of the participant.

Andree has been skinning herself, telling support workers about the bugs under her skin. Andree picks her skin and puts her skin in a separate jar and states "this is the worms under my skin" – Pictures also attached to this email.
Andree has fired a total amount of 6 support workers in the space of 2 weeks. Andree has abused, accused and had no form of respect for any person that has come on board to help her. This even includes the maintenance person conducting repairs on her wheelchair – Attached in email

When support workers take Andree in to the community, Andree abuses customer servers in any shop she goes in to.
Example –
Andree attended MacDonald's drive through for a coffee, refused the coffee given and demanded the barista to make a coffee in front of her to show its fresh.
Andree screamed at a support worker who now refuses to return, stating she has ripped her favourite shirt apart. The stitching in the top was picked apart by Andree, to which she then demanded a refund on the item.
Andree went to Coles and abused the manager regarding a certain bacon they did not have in stock. Andree was asked to leave the shop due to the amount of abuse that she issued.

nessed to take multiple amounts of medications without anyone's acknowledgement and refuses to advise us on the medications. Andree will kill herself, if this behaviour continues. Previous provider found Andree on the floor from a drug overdose. A support worker was unable to get in to her home for her morning shift and found her with white foam coming out of her mouth. Andree was then rushed to hospital and said she felt "under the weather".

Please, I'm asking the NDIS to intervene in this instance, as this may save a life and stop putting the people on ground level at risk DAILY.
This is a duty of care.

HI Julie,

Thank you for reaching out regarding the complaint lodged today by Andree regarding the "refusal of supports"
As discussed, Andree has fired a total amount of 6 support workers in the space of 2 weeks due to unreasonable expectations.

Andree has fired the support workers for the reasoning below -

- Work shirt was not clean enough
- Support worker did not iron her clothing to her standards
- Support worker pulled weeds from her garden that was a plant she was growing for over 2 years
- Support worker did not cut the dog food properly
- Support worker did not have nice enough car

Andree was offered another support worker to cover the shift as all previous support workers refused to attend her home due to the amount of abuse they have received from servicing previously.
24/7 Nurse Assist are unable to provide a support workers as Andree has refused to have a new support worker and wants consistency across the board. Unfortunately this provider is unable to do this due to the amount of support workers have refused to go back and have been fired by Andree in the previous weeks.

I witnessed Andree overdose on the dates of 25/06/21 to which you are aware of. Andree took a hand full of medications and refuses to advise what medications she is currently taking and also refuses to advise of the GP who is giving her the medications.
Andree after 20 minutes of taking the hand full of drugs then fell asleep and awoke in minutes, screaming. I then helped Andree in to bed and this episode happened again.
I contacted 24/7 nurse assist and advised them of this and also to gain guidance on what to do.

I have attached additional medical information that states the below disabilities -

- Munchausen Syndrome - Page 4
- Chronic Pain
