Hi Ritu,

Thank you for sending detailed steps on how you operate and what steps we need to take for the funding to be implemented.
Angela's first appointment with Better rehab and initial appointment was conducted on the 14/05/2021.

- After the initial visit with the client, the OT and the client will work out where the modifications are required. The OT will then develop a scope of works (SOW) for the modification.
- Have you contacted the client to discuss the home modifications? During initial appointment, I attended also. A tour was conducted of the home and what modification are required. Has the scope of works been completed?
- The OT would then send the SOW to the builders and arrange the 2-x builder to visit to obtain a quote. The OT has to be present during both the visits.
- Have you relayed with the builder during this time to discuss?

In the first initial appointment and the referral of FCA being completed, this was a very detailed conversation via phone on what outcomes we needed to prevent Angela from falling over in her home due to extreme fatigue.
I also advised, Angela was funded in her previous plan for home modifications. I also discussed the previous reports conducted where non detailed and failed to provide enough information and this provider put the supports on the wrong template. I have spoken with the NDIS who have advised of the hidden funds from previous plan to have this completed.

This will now slow the process up for this poor family, who have not gained the supports Angela is entitled to. I'm very disappointed, I have given you a participant to look after and no follow up has been done for. This is someone's life, and the severity of these home modifications is important. As you are aware, Angela has had multiple falls and previously has broken her ribs by tripping over concreate in the community. Angela has many steps and bumps in her own garden at home and steps inside her home including her unsuite bathroom that Angela uses daily.

Can I kindly request you complete the next step for home modifications and any other appointments you may need to have this process to start rolling. If you require further hours implemented in the current service agreement don't hesitate to pick the phone up and ask. I'm happy to jump in wherever need be, but I need this communication on where the assistance is needed.

Thank you,

Hi Terri,

The whole process for complex home modification takes up to 20 hours. Please find the breakdown of hours below.

Currently I have only seen Angela for the initial assessment and no other assessments have been completed. The general process for complex home modification is:

- After the initial visit with the client, the OT and the client will work out where the modifications are required. The OT will then develop a scope of works (SOW) for the modification.
- The OT would then send the SOW to the builders and arrange the 2-x builder to visit to obtain a quote. The OT has to be present during both the visits.

ting to advocate for Angela to obtain funding for the CHM process (assessment, report writing, developing the SOW and getting quotes from the builders) and project management to assist with the planning. Application for CHM can be completed after this.

Please feel free to call me if you have any other questions.

Regards,

Ritu Patel

Hi Katie,

My name is Terri the appointed support coordinator for Angela Cutler. Angela has forwarded the template attached to an email you had sent on the 17/09/2021 regarding the home modifications.
Can I kindly ask if you attached this documentation to be completed? If so, happy to reach out to the builder for this to be completed.
Angela is really in need of these home modifications and if we need a little direction on this being approved please advise if so.

Your assistance is highly appreciated.

SC called NDSP to escalate the invoice attached for payment as Angela is in dire need of this equipment.
SC spoke with Andrew who advised they have just been put in full lock down so invoicing is a little behind for a heads up. Andrew states he has flagged this as urgent.

SC has informed Gary and Angela.

Angela has been diagnosed with MS and her mobility is not at full capacity. Angela cannot do any meal preparation after 1pm as she becomes very fatigue due to the ongoing heart issues and her MS. Angela is up in the morning prepping the food for dinner, as stated above she is unable to do so after 1pm. This leaves both participants in need of food preparation assistance. As much as Angela is an amazing informal support, she also has her own disabilities. Recommendation of Support coordination Angela heavily relies on Support Coordination for linking services and navigating the complex NDIS system. Hi Team,

How are we going with the assessments and reports for Angela Cutler?

The s48 lodged is now sitting with the NDIS bookings team, I will be expecting a call very shortly to book this in and without the evidence/FCA reports this will be declined on the basis of no new information provided.

Can I please have an ETS for each report please?

Many thanks ??

Subject: Angela Cutler - 431171334

Hi Rebecca,

I would like to advise you of a few incidents that have occurred in the previous months with Angela.
Gary is in carers burn out and is also received devastating news of his Cancer. This removes Gary from the informal support's Angela has previously had.
Angela has unfortunately been in incidents where she has broke her bones due to how fatigue she has become from her MS and complicated heart issues.

Angela in most recent weeks broke her ribs due to a fall in the community and was taken to Harvey Hospital. Harvey hospital have not uploaded the evidence on Angela's health profile, which we should be able to access very shortly.
Angela in the coming weeks will be going for her 3rd heart operation for Electrophysiology study and radiofrequency ablation. Previous surgeries have not fixed the problem. This is becoming a everyday situation where Angela feels extremely deteriorated and exhausted from not only her MS but her heart. This creates a double wammy of the same symptoms where this leaves Angela not able to function past 2:00pm.

Can I please have clarification on this email being actioned on the NDIS end as Angela has previously been failed with certain documents not being uploaded or actioned.

dence in this email, please see attached.

SC spoke with OT Linda regarding assessment taking place tomorrow 14/05.
Linda advised there is no need for builder to attend. SC advised Frank is in the industry for all the right reasons and due to the mess around previously with OT reports this is in benefit of Angela to have a third party to attend to ensure all reports go hand and hand.
SC has relayed to Frank and OT of times. SC has also advised Gary of the earlier time to arrive with builder tomorrow.
SC will send report to ot from rocky bay

SC spoke with Graham from the complex team of NDIA. Graham has been sent all reports including rocky bay and also confirmed the report is not sufficient. Rocky bay has only advised rails for the complex home mods as they do not have the correct licence to conduct.

Hi Linda,

Yes, Angela has enough funding for this to be completed at 15 hours. I would also like to give more information regarding my participant.
