Subject: RE: Bassam Haidar.

Hi Rahela,

Thanks for doing Bassam's report.
We are currently gathering reports and information to support a review of his current funding, as the NDIA have given him plan which does not provide for all the necessary supports that he needs. Also, in his current plan they have removed support coordination, which he desperately needs to navigate his supports/providers.

These are Bassams's Goals:

- I want to be able to mobilise and complete activities of daily living independently, whilst being feel safe at home and in the community
- I want to increase my social and community participation and maintain my social relationships with my friends to live a meaningful and fulfilling life.
- I would like to continue volunteering and serve back to the community
- I want to improve my overall health and wellbeing.

Kind Regards,

Rachael T

As this can be quite a long day, we are able to deliver this across 2 appointments if more suitable for the Client otherwise we would suggest allowing up to 5 hours for this battery of assessment. Yourself, or another support person, is also welcomed to attend the initial clinical interview (and the ABAS-3) if you feel this would be well placed however it is not required.
