SC Leah and Vida attended Sam's house today as well as Nabin the LAC from Mission Australia. We discussed Sam's changing requirements and have submitted for more core funding to assist Sam in getting to his appointments as well as cleaning services.
Sam is undertaking Hydrotherapy starting next week at Fiona Stanley and requires assistance in getting to an from the Hospital. Sam's ATT is a priority and the Scooter bed and Recliner will be funded in the new plan once the reports have been received from the Life Ready OT and Physio (we have attempted contact several times with no Success Vida is following up) We are unsure if they have conducted an FCA I will refer Sam to ORS to get one completed ASAP as Nabin requires this before the new plan can be submitted. Sam is unable to utilise a walking frame due to the polio damage to his left arm, Sam is currently using a wheel chair supplied by Fiona Stanley they have stated he can keep this for 1 year then he will need to supply his own. Sam's main focus in on getting his scooter so he is able to get out of the house more. The bed and Recliner are also very important to assist with his quality of life. Sam stated that he has had some very low thoughts are his health has declined Stating he thinks "does he really want to go on and what is the point " he stated that he is able to get past these times but it is very worrying that he feels this way, Sam is able to access the free Mental Health program through his GP and will hopefully commence them soon to assist with his depression. Sam today elected for a 3 year plan as he find it difficult to talk about his disability and the issues he has in his life without getting upset. Nabin agreed but assured Sam if his circumstances change his is able to submit a change of Circumstance at any time and have his plan Reviewed. Sam also stated he has hearing loss in his left ear from the Post Polio Syndrome this and the muscle loss are ongoing and will possibly remain degenerative.
