Ikram stated that she has a support worker and she is Rockingham, I stated that Bekki will only have a female as there was a few things that happened when she was younger. I left the office at 10:30 to get to Bekki's home for 11:30 for a meeting with Bekki and lisa. we spoke about all the things she needs and what the old support coordinator did, she state that she hasn't had anything done and Bekki is very frustrated about it as nothing has been done and she feels like she isn't getting better. Lisa stated that they have Life Skill in place and they were support to be her support coordinator but they turned around and stated that they don't have the capacity to take her on, they still have someone who comes out once a week to take Bekki out in the community but Lisa and Bekki stated that they aren't helping with anything or making anything change, and they aren't going by the goals in Bekki's plan.

I stated that she should be going by Bekki's plan to see what she needs to improve on or what she needs to do or get in place to be able to achieve her goals. I stated that she should also be going weekly or fortnightly reports, I stated that i can try and find someone for her that can go off her plan and try to help put strategies in place to help with that. I asked if she would be happy to see another psychologist as i could see she had a lot of stuff built up and i could see what she was still very upset and worried. Bekki started crying and that's when i knew that she hasn't had anything done to help her. Bekki stated that she is fine to to do that and she thinks it would be good for her.

I stated i will send off a referral to concentric rehab and see if they have the capacity as she will be doing ongoing OT therapy and physio for her back as she always gets a sore back. I asked if there is anything else that Bekki has been diagnoses with and Lisa stated that she has , High Functioning Autism Level 2 , Anxiety, Dyspraxia, Major Depression Disorder, Verbal Impairment and Dyslexia. I asked if Lisa has all the diagnosis reports for them as i will need to call the NDIS and see what they have on file.

I asked if they have had a FCA done before and they stated that ORS group done it but they didn't send it so i stated that i will call them and get it.

I stated that it was approved in September so Bekki has gone this long without a plan manager and it needs to be done now. I was asked for him to put me on hold so he can find the plan and see fi there is the new one. He asked for Bekki's date of birth so he can verify that and for my details so he can see if i have consent there. He stated that he has the new plan and he asked for my email address so he can send it through. I stated that when it gets sent through i will send it too Lisa	$25.10

07/10/2021	Chloe osborne	1 hr 30 minutes	Phone Call / SMS	Call from NDIS, Lisa and NDIS regarding the plan	** Large Note printed below.	$75.30

I had David from the NDIS review team call me in regards to the review to change the plan management to plan managed, He stated that it was unable to get in contact with them but as he was able to identify me it was able to go through. He then stated that it looks like the plan is already been changed, I stated that it must've already been done. I asked what the dates are and he stated that it was from September. He then went through all the the plan and stated that it has all be changed to plan managed but the only thing that isn't, is the transport.

I stat that is okay and he said that Bekki should have the new plan, He stated that i should call Toni and get then to conform that she is happy with that and i can then call back and he can close the review. He gave me his number to call him back on : 0432 704 126. I stated i will call Lisa and after i have spoken to her i will call him back.

I called Lisa and i stated that i have just hoped off the phone to NDIS and the plan has been changed to plan managed, Lisa asked what we can do know and i stated that i can start doing things for Bekki as the plan has been changed and we can bill now for the services. I stated that i will send the plan to a plan manager and it will all be sorted. Lisa has informed me that Life Skills are going to Lisa's tomorrow, I stated that if she is happy and now that we can bill as it is plan manged i can book in a date for me to come and meet with them and Lisa stated yes that would be good. We have booked it for the 15th on Friday at 11:30am.

Lisa told me that David called Bekki from the review team in NDIS and was asking her questions about the plan and Bekki was in tears after the phone call and she doesnt know anything about the plan and doesnt understand anything of it. I stated that with Bekki's disability she shouldn't having people call her anyway and that it should be going through you. Lisa agreed and is ted that when i call David back i will inform him that it was rude of him to contact Bekki knowing she has a disability and still asking her all different questions and especially when Bekki has a history of trauma that is involving males they should know before calling people that they might have a past that can trigger something.

Lisa stated that when i come and see her we will talk abut the therapies that need to be in place and that she is needing a OT but she has been put on a wait list until they find a OT that is available. I stated that is she is happy for me to do it i know that concentric rehab has the availability for OT, Lisa stated that it would be great and i can go ahead and do that for her so Bekki can get some ongoing therapy. Lisa has informed me that there is a support coordinator a

t Life Skills that was doing support for them but Lisa stated that when they go there tomorrow she will tell them that she already has one.

I called David back and i stated that Lisa has given me her consent and that he can close it now, I also stated that moving forward tat no one is to contact Bekki in regards to anything. I stated that when he called her that Bekki has broke down and was in tears after the phone call due to the rudeness and the way he was. I stated that Bekki is not meant to be contacted at any point and that it should all go through Lisa the mum. I asked if he can change Bekki's number from the system and only have the mums. He stated that because Bekki is 29 that they aren't able to speak to her mum unless she is a plan nominee, I stated that on the consent forms that both Bekki and Lisa has signed it and that Lisa has signed the delegate one as everything is meant to go through her. He stated that there should be plan nominee forms signed if everything is meant to go through Lisa. I stated no that's not true and that if the child representative is signed then that give permission for Lisa to speak on behalf of Bekki as she has Autism and with her PTSD from her past trauma she is unable to talk to people.

I stated that i am going to see Bekki and Lisa on the 15th of this month so i will get new consent forms signed and in the mean time i have requested for no one to contact Bekki at all and only Lisa.

30/09/2021	Chloe osborne	30 minutes	Phone Call / SMS	Call with Lisa	Called Lisa and we spoke about the employment and why there is needing a increase of funding and she stated that Bekki hasn't got a job so she wouldn't be able to get a letter of support from them, I stated if there is a OT in place as we would be able to get one from them stating that Bekki is needing a minimum of 15 hours a week not 2 hours that has been stated in her plan. Lisa stated that if i am still coming tomorrow and i stated that because the whole plan is NDIA managed that i wont be able to and i have informed her that i have also sent off a light touch to get the plan changed to plan managed and i then explain the difference between NDIA managed and plan and Lisa is happy with that however, she isn't happy about why no one told her that if the support coordination is NDIA managed that why we cant bill from it. I stated that i wasn't aware that whoever did the initial didn't see that it was NDIA managed as there should've been a service agreement for the funding to come from the core . I stated that if she can get in contact with a OT and asked if she can do a letter of support for why Bekki s needing 15+ hours for employment that will be enough evidence to back up the review.	$25.10

SC Leah conducted Becki's initial meeting today over the phone.
This was a change in plan Becki's mum Lisa is palliative nurse and was exposed to Covid through a patients family so she must isolate for 2 weeks at home.
Lisa and Becki were both present at their home and in good spirits .
Becki is a 29 year old woman who was diagnosed with Autism 3 years ago just after they arrived in Australia from the UK .
Becki's main focus is finding employment however there are some barriers to this happening.
She has never had paid employment though she has volunteered at a day care and at a group home. Becki was sexually assaulted by one of the residents while there and took some time to tell anyone that it had happened.
Due to this the priority needs to be getting Becki assertiveness and sexually Awareness training before she enters the community and commences work.
Becki is unable to read social ques as someone else her own age might and this leaves her at risk.
Some job options suggested by Becki and Lisa were stacking shelves, working with animals and anything that is repetitive she is unable to work with number or money due to her diagnosis of Dyscalculia and Dyslexia.
Her employment would need to be close to home Golden Bay with is between Rockingham and Mandurah she is able to catch public transport if she has been on that route with someone else prior.
TO DO LIST :
Contact Mindful ness coach and discuss Becki's needs
Submit for light touch review
Start to organise Reports as they wish to go back for a review and get more funding for employment .
Follow up with the Centrelink Medical Exception I recommended and gave instruction on how to get in place.
Talk to Luke and see if he is able to support Becki to gain skills she needs to gain protective behaviour's
Becki currently gets her support Workers from 4lifeskllls
but is still waiting for her first appointment with her OT Lisa was unable to remember who the appointment was with.
