SC Rachael and Shadi spent time reading the notes beforehand in preparation for the call with Jason &Kristy (from Enable) and Joy (Nominee for Ben). FFG Support C oordination has been requested by Joy.

SC Rachael questioned why the funding was locked and was being used so rapidly in large amounts. Jason (Manager) and Kristy (Service Coordinator) explained the issues around funding. Currently the plan's funds are depleting faster than usual as Ben requires around the clock care and has limited funding for accomodation that suits his needs. He is currently in a shared home arrangement in Bunbury (through Life Without Barriers). This arrangement is not suitable for Ben as his mother Joy insisted that he needs to live on his own (with support) and has had many issues, conflicts with others as well as safety issues. He is not supervised enough and has placed himself at risk by leaving the home on his own - unattended. Jason mentioned that Sil/ILO has been explored beforehand however the model recommended by the NDIA of 1:2 or 1:3 care is not suitable. Ben needs to live on his own with 24/7 care, until this is acknowledged by the NDIA and adequate funding is in place - his plan will be eaten up very quickly. Ben is currently tied into a lease. His funding does not allow 24/7 care, so Joy has been looking after Ben on the weekends. This has taken its toll on her, she is unable to continue to support Ben like this and is at risk of burnout. Joy explained that she has doumented the issues regarding Ben's situation and has physically attended the Midland NDIA office to submit her issues in writing. This information was stamped by NDIA and recorded on the NDIA record.

There is currently a PBS report and FCA which Kristy from Enable will send through to Rachael and Shadi.

Kirsty asked about the current roster of care - SC advised she would check with Director Vida and get back to her.
