Hi Gita,

As discussed Caroline has her review today, and I have not heard from you regarding the AT forms. Can I kindly ask this be completed in the next two business days as requested as this may come in to part of Caroline's funding being decreased.

I cannot stress how important this piece of equipment is for Caroline.

Look forward to hearing from you,

Hi Gita,

No unfortunately we will need this evidence for the upcoming review. Caroline is in desperate need of this equipment. The previous OT advised this would be done and no one followed up hence why I had to send another urgent referral.
The recommendations for AT was implemented in to the FCA that was conducted by ORS with NO further communication was had. Caroline was left in the dark.

As you know, Caroline is struggling with her mobility and desperately needs this equipment, hence why we are going for a early review of her funding.
Can you please make this happen before the 18/08/21.

Your assistance is highly appreciated in this matter,

An initial appointment is 1.5 hours to allow time to complete the clinical assessment, any psychometric screeners required and to gain a thorough understanding of your history and therapeutic goals. Consequent appointments are 1 hour in length unless longer appointments are negotiated with your treating Psychologist. Please note we can provide supports both at home, at school and via telehealth (phone of video) as required to meet your needs.
If you are the Parent of a young NDIS Participant, you may wish to complete this appointment 1:1 so that you are able to speak freely however this is by no means required and the Participant is welcomed to also be in attendance.

Hi Mia,

Thank you for sending detailed report through, much appreciated.
I do have some recommendations and I feel a few things have been missed.

- Due to Caroline's fatigue, I think it will also be extremely beneficial to have assistance with meal prep/meal delivery incorporated as a recommendation. Caroline's diet will not be helping her current iron levels neither her lethargy. Caroline, can go to the shops but struggle's to understand what is good for her body nutritional wise.

- Caroline's secondary disability is intellectual disability, this was not advised in the report. This causes Caroline to lack in linking her own services. Support Coordination is a service Caroline needs to maintain her equipment, link domestic duties, and help navigate to complex NDIS system with what she can and cannot purchase from her NDIS funding. Caroline cannot understand the scheme, and her mental state is not stable enough to do so. There for I recommend 30 hours of support coordination

Prior to sending to the NDIS, Please allow me to discuss this report with Caroline.

Your assistance is highly appreciated,

Warm Regards,
Terri Roberts

Good Afternoon,

Thanks for chatting with me this afternoon Debbie.
My participant is seeking assistance of repairs on her mobility scooter. Unfortunately I don't have any other relevant information regarding the model/make of this equipment.

Caroline has a intellectual disability where is she unable to piece together last week, never mind when this was purchased. The mobility scooter was purchased by Caroline herself, many years ago.
Caroline advised the basket on the back of the scooter keeps falling off. If I can kindly request repairs to be conducted on this, that will be fantastic.
If we can also possibly schedule this in for an afternoon, as Caroline attends other activities. Can I also kindly request the booking come through to myself for approval and I will relay this information to Caroline.

Caroline's details -
