The prognosis is for a slow recovery. Simon has organised a stake holder meeting for next week With Dean and Support workers to get everyone up to date on where things are with David and the plan moving forward. Considering the new change of circumstance for David it is likely that Dean will have him placed in a secure facility al least until he has recovered from his injury but probably keep him in something similar moving forward there after. David is unlikely to be able to attain the same level of physical ability he had prior to his injury as he is resistant to any medical interventions which will slow his recovery significantly	$85.62

Hi Terri,

I have just the 1 support worker allocated for David Germon for this week and possibly next week.

David's Shifts are 11am to 3pm Monday to Sunday as requested by Vida.

I'll organise a back up support worker for David just in case we need a replacement.

Please see the daily report provided to me by my SW for today's shift.

"Daily report:
Today when I walked in at 11am David was arguing with a nurse. He looked at me and said "bugger off I dont want anyone today" I had a seat in the room I started making small talk with him about his health, food and stuff.
A cleaning staff (im assuming) came to change his mattress, while they were doing their job David started complaining about the bed apparently feels like it's going to break blaming the staff for not doing a good job. The staff were making jokes with David saying things like he's a heavy boy which probably caused the bed break and David took offence to that and replied with "Dont call me fat you skinny little b.." before he could complete that sentence i interrupted him by saying "David no you don't need to speak to the nice lady like that she was only joking" David was furious he looked at me and said "Leave me alone I dont want you here you're boring me now, go fetch Marty or paris" I told him I'd leave him alone if he wasn't rude to the staff.
Later on during the day an African and a white nurse walked in to check up on David. When they walked off David looked at me and said "I don't like her" I asked which one and he said "The one that looks like the TV when it's off"
He said it fairly loud. I told him it wasn't a nice thing to say and he got even more mad at me telling me to get off his case and to go home.
He had lunch around 1pm. I tried communicating with him about why he's been so angry and his response was his current state with his sore body makes him furious. He had a long nap. Around 2:45 he had a physio check up.
Currently finishing my shift at 1500."

Marty has advised that he is not available to work anytime before 3pm on any day except Sundays. (Just FYI)

Kind regards,
