Subject: RE: invoice query

Hi Marie,

Thank you for reaching out to me this morning via phone.

All your concerns we have taken on as feedback to improve our services here at FFG. I would like to confirm Simon has received this email but unfortunately has been on the road all week and has been unable to respond to your email. I would like to apologize on the behalf of Simon for the late response.

I can confirm and accept the 30 days' notice for services including PBS and Support Coordination. We are more than happy to provide a handover to the next appointed support coordinator and if you are in need of anything else, please don't hesitate to contact myself.

I would like to formally apologize for the miscommunication and mistakes that occurred on our end and we wish you and Ember all the best in your NDIS journey.

Take care,

Terri R

the invoice wasn't paid before Friday, then the PBS session would be cancelled. Please let her know the only reason it wasn't paid was because I was waiting for a response in regards to my query as per previous emails to Malika and yourself. In fact, I was the one making the follow ups regarding this matter as no one has gotten back to me about it as per previous email with Malika early on and yourself and Leah on 14 Sept and again on 15 Sept.

I signed up with your group because I liked what you were selling, I believed that your group could help Ember and my family navigate GDD and NDIS.

In my previous email, dated 14 Sept., I have submitted my 30 day notice to end the service agreement for SC. I was asked to reconsider this and that a proposal would be provided within 24 hours for me to consider. However, nothing happened. When I made a follow up regarding this matter, I got told something different. I have kept my mind open to the possibility of continuing with SC services for the past couple of days but I no longer believe that having FFG as support coordination would work.

Further, due to the mishaps that happened within the past month or so; even though, it has been raised, it was not resolved satisfactorily on my end. I do understand from the get go that the funding needs to be spent, but in the same token, I want to spend the funding appropriately. However, I was made to feel that I had no intention of paying the outstanding invoice, when in fact I was waiting for feedback/answers. I have paid for all the invoices on time even the one due on the same date that I have received it except this one due to the queries. I was made to feel that I should be grateful that it was under charged because I wasn't charged for mileage only the travel time. I was made to feel incompetent for not knowing that even if it is the company that calls me, to offer to book a schedule in that I will be billed. I know that everything is charged, travel etc but I do not believe that I should be charged if it is the business that calls me and offers me something. If I call the business/therapist, then yes I should be billed but not the other way around. Besides which it is the responsibility of the Support Coordinator to inform me of things pertaining to services and what will be billed etc. In this regard, the SC has been a disappointment yet again as I was not briefed with this. Please note that both PBS and SC were from your business but none of them have informed me that I will.be billed if they call me. Moving forward, I will not answer therapist emails.and calls as I was informed that this is always the case.

Please consider this my 30 day notice for termination of all other services with Fo

rward Focused Group. Please cancel the appointment set for Friday as well.

I liked what you were pitching over the phone and when you took the time to come to Pingelly. Specially that you have informed me that you and your business understands the frustration of dealing with everything pertaining ASD or possible ASD. From the things that you have informed me, I have set my expectations high, however, it was... very disappointing to say the least.

I wish you all the best.
