Subject: RE: Blender & Nappies - Heran Tesfay

Hi Omar,

Why is this product wrong? Before sending this back we need details on the why so I can amend this

Please send through the reimbursement for the nappies and I will send to Tilly for payment. This is due sometime next week but again due to delay in shipping at this moment in time this could be pushed back.

Hi Kristina,

Thank you for advising the below and touching base again. I will document this and have requesting quotes for blenders to be funded through Heran's NDIS plan.
I will hopefully finalise this on Monday morning and inform the support workers of the email below also, who can maybe give more assistance in the morning with the lunch boxes.
Regarding the feeding at school, will Heran require more supports at school? I can organise this for more assistance at meal times.
Please reach out if you need me to intervene at any moment in time.

would be good if mum had a blender, which would help preparing Heran's school meals as per plan.

I have asked Sandy to keep me posted if any further incidences occur around her lunchbox so we know if further training is needed.

Nutrition-wise, I am confident that Heran does not require any medical grade supplement at the moment. I have provided mum with strategies to fortify her current meals and give Heran high protein high energy foods for when Heran is feeliing unwell.

I will review Heran again in November.

Please let me know if you have any questions.

Kindest regards
Kristina Isouard

Subject: RE: Heran's home

Thank you.

Can you advise when the FCA/SIL report will be completed?
I did some research this morning an ILO is only for 18 years and over.
SIL and SDA Heran will be eligible for.

SDA eligibility –
Step 2: Identify their type of eligibility.
There are two main categories of eligibility to achieve SDA in your plans.
1. Extreme Functional Impairment – this is defined as people with an intellectual disability or cognitive impairment who have no (or very low) physical support needs will not be eligible.
The NDIS participants who get SDA approved in their NDIS plans are generally people who, even with appropriate home modifications and/or assistive technologies, still need a high level of in-home support from a paid worker with daily activities such as:

- Getting in and out of bed
- Getting dressed
- Moving around
- Preparing meals
- Accessing the community

2. High Support Needs – this is can mean:

- That your 'informal supports' (people who help you but don't get paid for their help; often family or friends) can't meet your personal care needs
- You have spent a long time in a group home or residential aged care (this includes people who already live in Shared Supported Accommodation / Group Homes / young people living in nursing homes etc.)
- You use behaviours that pose a risk to yourself or others.

Subject: RE: Heran Tesfay

Hi Sue,

I spoke with team leader yesterday afternoon who advised me, the invoice is outdated and this is why it's being rejected.
I advised the funding is not in the current plan and he stated this is "hidden funding", this was approved in the previous plan so the funding just needs to be released. Once we have received a updated invoice with dates of the current plan this will then be sent to the assistive technology teams who will then release the funding for Tilly to process.

The team leader has put detailed notes in the system for the NDIS to be well aware of the conversation and direction on what to do to have this invoice paid asap.
Receipt number for the call is - 7003004074

If you can please send through the amended invoice for payment ??

Subject: Heran Tesfay

Hi Sue,

Thank you for taking my call today.

Can you please send through the information below for me to contact the AT team at the NDIS directly regarding the overdue invoice from the overlap of NDIS plans.

- Invoicing for product
- Risk assessment complete for the product
- AT application form (quotes) – OT would have completed this, I have cc'd her into the email

In order for me to gain the funding in the current plan I will need to information above to advise what has happened and what they can do to fix this and implement the funding missing from the current Capital budget of the plan dates 19/03/21 – 19/03/22.

| 07/09/2021 | Rachael Thomas | 15 minutes | Phone Call / SMS | Call to NDIA | SC contacted the NDIA to enquire whether the consent forms have been received and processed yet, as they were submitted via enquiries@NDIS on the 24/8/21.<br>Consultant at the NDIA advised that the consent forms were there,she could see them, but they had not been processed as yet. Asked for a light touch review to be conducted asap to change management style so that client can access services. Consultant seemed confused and proceeded to ask irrelevant questions.<br>SC requested to speak with a Team leader however was advised that one was not available.<br>SC explained that the client was at risk of homelessness and desperately required services, and expressed how urgent this was as the consent forms were uploaded over 2 weeks ago, and that plan management was required. SC reiterated this matter needs to be rectified immedidately.<br><br>SC also asked consultant to confirm the primary and secondary disabilities listed on the system, she stated that this was not allowed as it was an internal process. SC advised that the consents forms allows us access to medical records and that the disabilities would be covered by this. Consultant maintained that this information was confidential.<br>Consultant proceeded to ask me irelevant questions stasting that she was escalating the matter to be dealt with asap. Consultant issued SC with a receipt number and said that a review officer would be in contact. | $16.27 |

Hi Sue,

Thanks for your time earlier. I've submitted a payment enquiry on our end, as it kept rejecting the service bookings we tried to make (see below).

I've also tried doing a manual payment request, but no luck there either (it says its successfully submitted, but it basically disappeared from our system after I put this through):

Subject: RE: Heran Tesfay

Hi Samara,

Thank you so much for your detailed response. I was speaking with the OT today regarding the transfers and the equipment needs to assist with the mobility of Heran. I do believe this is a huge barrier of Heran reaching her full potential in her functionality. I will do my best in attempting to get this across the line. In this case, we really need a good team behind Heran to make this happen.

At this moment in time due to the crisis of accommodation, I will be lodging a change of circumstance as this suits the criteria for a early review. If we can start up all reporting, this will be fantastic and well within benefit of Heran's upcoming review.

I will keep you informed of the upcoming review and when this will be lodged.

Terri R
Support Coordination Service Manager at Forward Focused Group

IMPORTANT: This e-mail is for the use of the intended recipient only and may contain information that is confidential, commercially valuable and/or subject to legal or

nitely think new accommodation would be beneficial for Heran and her family, and would be more than happy to complete a report if this would support a change of accommodation for Heran and her family.

Another point I was discussing with Chris previously was the limited funding currently available for PT input, as there are a large number of things that need to be addressed, such as the safety of Heran's transfers, prescription of a walking aid and ongoing therapy input to support independence as Heran transitions into her teenage years. Chris had contacted the other members of the MDT to see if there were any spare funds, however did not receive any responses. My concern is that if Heran's PT input is reduced due to her funding (she is currently being seen fortnightly as per her mother's request), she will not progress as expected and will become further dependent on her family, which may lead to an injury to themselves or Heran if they continue to adopt poor manual handling techniques. Chris had mentioned potentially organising a meeting with the MDT to discuss an early plan review. I would appreciate your opinion on an early plan review, or if it is preferable to reduce Heran's therapy input until her plan is due for review in March.

Looking forward to hearing from you soon.

nising to be returned

- I have completed a referral to Healthy Strides for blocks of intensive rehabilitation therapy. This was discussed amongst Samara, myself and also Janine who has been assisting Heran at school. I discussed this with Semira last week who was supportive of the referral and requested I email her the details. I sent her an email but have not heard back. Bookings can be hard to come by and it is possible that these dates have since been taken. Are you able to please assist Semira and HealthyStrides to find a suitable time to complete the initial assessment in order to then participate in the relevant programs.

I have attached the last OT report completed in December 2020, this will probably require updating should we go to an NDIS review or require anything that is not currently funded in the plan.

Many Thanks
Tilly

Hi Omar,

I have been on the phone to department of communities who have advised they are unable to push this application up any higher due to the demand of a 5 bedroom house.
I stated the family would be happy with a 4 bedroom who as this is better than living on the streets. Department stated the 4 bedroom is a even longer wait.
No 5 bedroom house has become available in months. I did asked for alternative and they have sent through the bond assistance application for any private rentals she may want to attempt in applying for.

Department will cover $1,300 for the bond plus 2 weeks of rent. We will not allow the family to go on the street, but please keep me updated on the eviction notice as we will need to stop drop and roll.

I have searched for rentals in the Koondoola area and the rent is extremely pricey. I would maybe have a chat with Semira and ask if she would like to look at alternative rentals as she would not be eligible for a rental at the prices currently. Right now in the area, the rentals are ranging from $500 per week - $1000 per week for a 4 bedroom house..

Let me know what she thinks,

S: 2 hours meeting with the client to determine Heran's unmet needs
O: Participant is an 11-year-old girl with Spastic - CP. The entire body impacted UE/LE bilaterally. She observed having good control at the waist and bending and reaching for the pen on the floor. Hand skills pattern: able to reach - arm extend and move to grasp and place the object. Grasp: able to hold the object in hand, carry: observed able to hold the object and carry the pencil, voluntary release observed. Requires support with in-hand manipulation, lack bilateral hand use.
Heran uses a wheelchair, observed put her hands on wheels and effort to propel herself, made good eye contact, responsive to emotions when positive reinforcement was provided. Unable to draw heart, tried to draw B, the shape and form were not successful. Able to use her pad to communicate, and point to emotions OT mimics.
Samira ( Heran's mother) reported she is having physiotherapy at school and use the school swimming pool; however, she was unsure of the amount of session. Heran has once a month Physiotherapy session at home. She has a speech therapist at school, and use school bus. Semira doesn't have a driving L, and have limited English proficiency, Semira reported Heran is not on a special diet and is able to eat all kinds of food, she can pick up fruit with hands, but not finger food or mushy foods. She is not able to use a fork, and spoon and bites the metal cutleries. Heran must take moist and minced food to school, Samira was not happy with this mixed food. Here is wearing pad for the bladder, and is able to ask to go to the toilet for the bowel. She asks to get changed, at school they don't change her and she came home with wet clothing. Heran doesn't have a plan for school holidays while having friends at school she will become isolated during school holidays.
The family of six ( five children and mother) lives in a 3 bedroom property that is too confined space for wheelchair, bed and other children playing around. Samira has to lift Heran from a wheelchair and transfer her to bed, toilet and bath. Samira mentioned they are living in private rental property and the landlord sold the house they need to move, but they are facing financial hardship.
A: Heran is 11 years old however Bo-Bath therapy will improve her range of motion, working on hands skills will improve fine motor skills. Heran requires the provision of a wheelchair that meets her need. While her mother asks for a hoist, which will limit her physical mobility it is essential to work on her hands and improve skills that Heran already has.
P: RY to complete thee home form, RY to complete functional assessment and discuss COC with Sc and request funding for SW at school, Bo-Bath therapy

to increase range of motion at hands to enable Heran to transfer herself using both hands and OT to improve fine motor skills and work on hand skills ( pen, scissors ), Request for AT ( cutleries and sitting package), speech therapist to improve Heran's verbal capacity.
