Vida: Yes so so that I understand properly so you messaged me Paul saying that you are taking yourself off the guardianship obviously you haven't I do.

Paul : but I haven't done anything because if I got it right now they'll give him a government three year order so there's another two two and a bit years ago or 1/2 used to go so they will the point of government guardian and they will also stick it in the their account which is a condom but they called it the notice of the office of the Public Advocate and then he will have to apply.
In the joint account you both sign for it and it's done so that was an I didn't get a chance to talk to him because somebody went in there and and welling up yeah I understand that look I I've spoken to the meat centre today an I asked I asked for someone to to see Kevin but they were under the impression that they stated that Kevin's father has called multiple times back to back and we don't believe we have the full picture Ann we don't think that Kevin at the moment needs a psychiatrist he's stable we've spoken to Kevin if you strongly believe that he does then you need to send Kevin to a GP and we need a GP referral that's what they said to me but I don't know when they spoke to him because on Saturday night when I spoke to them and they told me to phone the police he wouldn't answer the phone they don't work Sundays and I went home at 10:00 o'clock I had to keep phoning back because it was engaged all the time I didn't actually speak to anybody this is the receptionist said to me and they answered the phone yeah I said no it's engaged and they don't give you an option to hold on the line it just catch you off well she told me she spoke with you in times apparently that's just wishful told me I've run and the man at the National Health Service or what is the one 300 number said keep trying keep trying it will be engaged so that's really not the full story OK stand up in front of anybody and sweat on a Bible yeah fair enough so Shane that on threatening all his friends I'm threatening you I'm threatening Simon I honestly don't know where that's coming from 'cause he didn't say anything like that to me he did say to me when he did come in he said I'm sorry if my dad keeps calling you it's embarrassing I said no don't be sorry it's fine that needs to talk to me I'm your coordinator it's not embarrassing he said Oh no he's probably being hard and he blames you for everything I said no no your dad's never called me to blame me for anything your dad needs to speak to me and I need to speak to you so that we can all work together I'm happy to be the middle person and then he said I don't want you to be the middle person I don't want you to be stuck in the middle I said no

that's my job though Kevin that's my job I'm happy to be the middle person to smooth everything over so we can all move forward and he just said OK and he giggled but that's that's the only conversations we've had with him and no one has said that you've threatened us because you haven't I don't know where he's getting all this or if he's just angry and he's just saying all this to you but it definitely hasn't come from me or Simon I can I can promise you that change the text exchange me up and I'll send you the text he sent his sister and he's talking about good Kevin and bad Kevin ah OK no it's not so so the meat centre said they won't see him you're still a guardian do you want to call them to take him to I don't know be checked or something 'cause I don't have that authority I can't but you do two to be checked for his medication to the hospital you can do that with your authority no he won't but you couldn't waste of time I can send you the text that we've got and you can make your own mind up I think but I don't have that authority though Paul you do I can't do anything if we just give today a mission think about a plan of attack because this is all new to me I really do not know OK and I think I can show you the text and you can possibly read it up online or something and just say to me yeah or no let's harmless or yes it is not good try and see what you can do because as I said my wife terrified angry terrified and stayed at home stations living brown a friends house now because she's terrified the wife is really scared he's gonna come down hurt me hurt her or smash the house up because that's sort of messages he's sending right OK couple of messages so you get an idea yeah send it to me and I'll have a read and then I I can we can work together and we can go from there I'll have a look at his messages email works only in the morning but take the rest of the day and give it some real serious stuff no sure but if it is if it does sound bad I'll give you a call straight away or I'll message you I will keep in touch with you that's not a problem send it through and I'll have a look Paul that's that's not a problem OK no worries speak to you soon OK bye.

off and now it runs my life. I'm sorry I thought you oh and I had actual court like I've never even stated mentor tribunal was a tribunal is not a court. yeah patches not have over talked she doesn't know what to say anymore no you haven't over talked I'm just I'm so sorry you're going through all of this I can only imagine it seems about it he is in control and he's more of a abuser than man hit me and what he is doing doing a daily cycle is abuse if it is not physical but mental abuse for sure he's getting his size well I can't sleep I can't eat I don't wanna go out and I can't make plans and I don't look forward to anything at all because as soon as I look forward to something he takes it away from me yeah.. And if the police don't listen to me what even type my cold and what like I'll never kill myself will help my mom but why not like I want nothing else will live forever even alive I'm dead it's not my life anymore if that's dad's and that's where the cycle is
