HI Chloe,

I hope you're having a lovely Monday!

I just left you a voicemail regarding Behaviour Support services for King Yat Bill Chan. To summarise the voicemail, where King is located there is a bit of a waitlist for face-to-face services currently so to be able to offer timely support for King we can provide telehealth sessions.

Initially, this may look like clinical interviews and information gathering with relevant stakeholders over the phone before moving to video calls for behaviour observation sessions with King. We can also aim to provide any reports that King may require via the telehealth service :)

This call was just to see if this is something you think would be appropriate and beneficial for King. Otherwise, I can assign their file back onto the waitlist for face-to-face support and the next available clinician will be in contact.

Additionally, I noted in the voicemail that I can see on King's file that there is a request that the clinician bring the Service Agreement to be signed at the first appointment, for telehealth we are able to go through this document and sign virtually before any clinical work begins, if deemed appropriate :)

Looking forward to hearing from you!

Good Morning Helen,
How are you today?

I have just had a ready through all f then and it looks absolutely amazing! I think this would be great for Bill and it will help him a lot, however you will need to watch the funding with the current plan he has as I don't think there is much left. I have spoke to NDIS on Friday to see where the review is sitting at and they stated it has been approved and no just waiting for someone to contact us.

Hopefully with the new plan that we are trying to get and if the funding has been increased we can arrange this to be a ongoing thing as I feel like it would be great for Bill, what we can do is try a couple sessions as that's all you'll be able to afford in this plan and then you can see how it is and if you want to go ahead with it then we will continue with it in the next plan.

Let me know what you are wanting to do and we will go from there.

Kind Regards,
Chloe??

08/07/2021	Chloe osborne	1 hr	Phone Call / SMS	Call with Care Squared	Had a miss call from care squared for Bill Regarding the behavioural referral, I called back and spoke with someone and she stated that she will see if Caitlin is available to have a chat as she knows more about the referral and what is needed. I stated I have received the current plan so I will send that through once off the phone with the plan dates as well. Caitlin stated that she spoke with Helen yesterday and Helen stated that the OT wouldn't be able to go to the house for the assessment as she is worried about the dad as he thinks Bill doesn't have a disability and wont except the fact that he does and Bill needs assistance. Helen stated to Caitlin that the child protection has been involved as the dad can get very aggressive and angry towards Helen and Bill. I stated I will try and give Helen a call today to see if she will be able to go the the office in Subiaco as she doesn't want them going to the home because she is worried the dad will be there. I stated it is a very difficult situation as this needs to be done but it is hard if Helen doesn't want them going to her house for the assessment and if she is unable to go the the office due to she has more kids. Caitlin stated that if she needed to bring her kids with her she is able to do that. I stated I will send through the snapshot and plan dates to Caitlin's email and I will inform her once I've got a hold of Helen to discuss the matter.	$100.14
