Good Afternoon,

Due to the change not taking place, I was under the assumption, the NDIS will not fund for this as its not the current supports that Levi needs.
I will lodge a change of circumstance when we receive this information for more supports to be put in place.

Good Afternoon,

I touched base with the LAC and asked for update on the ETS of the plan. The plan will be released next week at this stage. I have forwarded all invoices to the LAC to make her aware of the amount outstanding.

Hi Candice,

Thank you for your prompt response and resources below.

I would like to ask how the mother is able to attend any therapies to maintain her mental health with no supports in place for Levi and his complex needs?

In the planning meeting, the parents requested an interim plan to be put in place asap due to the lack of supports they are receiving. Please correct me if I'm wrong, but you advised this interim plan would be looked in to and applied to put the supports in place.
As you stated below, yes the planning meeting has now been completed but this was a request from the participant's parents during the meeting as they again, are in dyer need of supports for Young Levi and are at complete carers burn out.
It's very disappointing only find out now, this has not been processed when the eligibility criteria is there for Levi to receive these supports.

Please see attached the outstanding invoicing above.
Thank you,

onable and necessary, I am hoping for this to be approved by end of next week or early the week after at the latest point.

Can I ask what the outstanding invoices are for? So I can have a look at the current budget how we might be able to accommodate for these?

Below are some supports that the family can access in the meantime for Jerusha's mental health whilst we do our best to get the budgets in place for Levi.

Please see the link for how to apply for NDIS with a mental health diagnosis which would be beneficial for Jerusha to have a look at, so that she can also access NDIS Support for herself and I do not mind supporting with the process if you do need any help - https://www.ndis.gov.au/understanding/how-ndis-works/mental-health-and-ndis
