Subject: Levi Jetoh
Importance: High

Good Afternoon,

Hope you are well Candice,

Just checking in to ask how far away Levi's plan is away? I would like to advise, we have outstanding invoicing and no supports in place for Levi and his family. Jerusha is not in a good way mentally and physically from being the sole parent with a husband who works FIFO. This family are in dyer need of this plan to be approved.

During the planning meeting, Jerusha and Steven requested a interim plan to be implemented for the family to not go without the supports and invoicing to be paid as the equipment purchased is for Levi's disability needs.
If you can please provide a ETS for the plan's arrival, this will be highly appreciated.

Look forward to speaking with you,

Terri R

Hi Terri,

Apologies for missing your phone call yesterday.

I hope the plan review meeting went well!

We are happy to support with whatever is required. Can you please clarify the behaviours of concern you're referring to, so that we can be specific in our recommendations?
I know the biggest behaviour of concern that was reported is Levi removing his NG tube, however wasn't sure behaviour support was required now that Levi is waitlisted for a PEG and because the discomfort of the NG tube will likely remain the motivator for the behaviour. More than happy to provide behaviour support recommendations for this though.

If it is in regards to the hitting behaviour, we can recommend this under the different line item, if you think that would be more suitable.

Would a letter of support be required or an amended functional capacity assessment report?

Kind Regards,

Briony Corrins

Subject: Levi Jetoh
Importance: High

Good Afternoon,

Thank you for conducting Levi Jetoh's planning review.

As discussed, I would like to have confirmation of secondary disabilities being lodged and streamline to be investigated as Levi's meets the criteria of intensive supports.
I will be reaching out to mainstream supports to gather evidence requested for funding in next plan –
Exploration report for Swimming
Support letter for behavioural intervention
Letter of support from PCH for upcoming transition of PEG feeding

I have attached all invoicing that has not been paid and is currently outstanding for surgical house, I'm worried this may potentially stop Levi from gaining reasonable equipment and supports if this is outstanding for longer that what it is.
I have applied for a GAP payment also for this, but plan manager has not gained response from NDIS.
I have attached this in above email with all unpaid invoicing.

Subject: justification for items
Importance: High

Good Afternoon,

Thank you for taking my call regarding the outstanding invoicing for Levi Jetoh.

I would like to provide the reasoning for the outstanding invoicing for payment approval for GAP payment via NDIA.

Pedisure Powder –
Levi can't eat or swallow, and has nasogastric tube inserted in to his nose. This equipment is known as nasogastric (NG). Levi is unable to eat or swallow and still requires powdered milk to have the correct nutrition he requires, as any human requires. Levi is very fatigue and requires the correct foods to function daily. This is deemed reasonable and necessary.

Pump Suction bottle and tube - This is to keep the tube in Levi's nose clean from any potential bacteria that may come in pact. If not consistently changed, this can result in levi becoming extremely unwell.

Huggies – This is a necessary product also deemed reasonable and necessary by the NDIS as Levi needs nappies day and night. This is a result of his disability from Trisomy 21 which is a rare form of down syndrome. Levi is currently receiving therapies for his capacity to build his capacity in reaching is current NDIS goals.

If you require any further information, please don't hesitate to ask.

Subject: RE: Levi Jetoh updated report

Hi Ellen,

Thank you for your very detailed report for , young Levi. Recommendations have been spot on for Levi to continue his mainstream support therapies to build his capacity.

Due to the demands of Levi's disabilities, this sets Jerusha on the road almost every day.
Steven, as you know works FIFO with a roster of 2 weeks on and 1 week off. With both parents being extremely busy with running the house hold, taking Levi to and from appointments and also full time parents to another young sibling, this has left both parents in complete carers burn out. I highly recommend the support coordination be incorporated in to this report as a recommendation. Levi's parent's Jerusha and Steven have relayed heavily on the support coordination to navigate the complex NDIS system and the linking services of RN, support workers and any other core supports.

Can I kindly request this be a recommendation for the finalised report.
Your assistance is highly appreciated,

Warm Regards,
Terri Roberts

Hi Carrie,

I hope you are well and it was lovely meeting with you on Friday.

As discussed, can I kindly request the strategy plan in place for Levi as this is heavy evidence for Levi's mobility and functionality at his time with you, in the Daycare centre.

As promised, we will keep you updated on what we are doing in the background.
Therapy Focus are conducting the behavioural management report as stated in the meeting, this is the policy and laws advised by Ecru. This report will also be submitted to the NDIS and yourself at Atlantis Childcare Centre.

Have a wonderful day,

Warm Regards,
Terri Roberts

21/05/2021	Terri Roberts	5 hrs	Meeting	Appt with Childcare Centre 21/05	SC and FEDVR went to meeting with the childcare centre Levi attends. In this meeting we discussed the correct information and documentation that must be implemented to meet Levi's needs. In this meeting was the area manager, director Carrie who runs the centre and the appointment child care worker who assists Levi daily - who works full time. Daycare centre advised only a strategy document and not the required documentation advised by Ecru - 08 6551 8333. By policy's and regulations the child care centre must issue a risk minimisation plan, and communication plan. Daycare centre advised none of the above have been implemented. SC requested the strategy report be sent via email. Daycare have been advised on how to contact and send this report through. Also discussed the RN role when attending the daycare. Director Carrie advised for policies and insurance purposes they want to understand who covers Ikram. SC stated Ikram is covered to look after Levi but must ensure no other child is able to gain assistance from Ikram.	$500.70

Hi,

Thank you for the response.

Once a month is not sufficient enough as I need to track the current funding. Can I kindly ask for the portal log in as Jerusha has two children which includes Levi with a disability. Jerusha does not want to take on any further obligations and especially NDIS funding, hence why she has a support coordinator. Can I kindly request this information be sent through asap as we are afraid of low funding.

Thank you,

Warm Regards,
Terri Roberts

Subject: Levi Jetoh - 431092168
Importance: High

Hi Candice,

I would like to make you aware of the lack of funding currently in Levi Jetoh's plan. Levi only has a total amount of $1000.00 sitting in the core.
I would like to advise you of Levi's medical conditions and therapies that is in place at this moment in time where he will no longer will have access to the therapies which assists in his mobility and functionality.

Small skull
Upward slant of eyes and epicanthic folds Oblique palpebral fissure Mouth has a narrow short palate with small teeth and furrowed protruding tongue Ears are small and dysplastic Hands are short and stubby Single crease on the hand (simian crease) at birth Delayed development and behavioural problems - Levi currently has therapies in place to conduct behavioural reports to submit to the NDIS for upcoming review.
Cognitive disability

Levi 3 years of age, currently gets fed through a tube in his nose, to gain all nutritional fuels for his body. Levi is severely underweight. Levi struggles to eat due to sensory and his short narrow palate located in his mouth. Levi has an appt on the 02/06 to discuss with a paediatrician to transition in to Percutaneous endoscopic gastrostomy, also known as PEG feeding. Levi is only funded for level 2 supports. No support worker is qualified, neither equipped to conduct and maintain this procedure, this also stands for his tube currently located in his nose.

Therapies -
Behavioural management - Therapy focus
OT - Therapy focus
Speech therapist - Therapy focus
Support Coordinator - Forward Focused Group Registered Nurse - Ikram - Who attends to Levi's needs x 3 per week.

Levi is at extreme risk as Levi's parents are In carers burn out which is resulted in a near divorce. I have extensive reports from support workers who have witnessed arguments and heard conversations where the relationship is at major break down. We, at FFG were advised by a support worker of an incident that took place, where

or a top up of funding to be implemented until this review takes place immediately.
Your assistance in this matter is highly appreciated,

Warm Regards,
Terri Roberts

letion of functional assessment and a number of cancellations, there won't be much information obtained from the process. Happy to proceed with whatever you feel is most useful. Let me know if you have any questions regarding this process.

Regarding the behaviour management plan, my Team Leader has confirmed that our psychologist currently has a waitlist of 12 months. This is far from ideal however Ellen (Levi's Speech Pathologist) has provided me with some updates regarding the likely transition from a nasogastric tube to a PEG, which will hopefully remove the need for a behaviour management plan (removing the nasogastric tube and associated discomfort will hopefully cease the behaviour of Levi pulling this out). Please see Ellen's updates below:

- Collaboration between Ellen, managing dietitians through PCH and Joondalup Health Campus, cardiologist and paediatrician has been occurring over the last few months. It has been identified by all parties that a nasogastric tube is not suitable for Levi due his severe oral aversion. It is also not best practice to have a nasogastric tube in for longer than 6 weeks and Levi has had this for 18 months+
- Paediatrician appt occurring in early June to discuss the possible insertion of PEG.
- Behaviours are likely due to discomfort and oral aversion. It would be great for staff and other carers to have training to insert and support the family with this. It would be great to have some positive behaviour strategies, however I suspect the discomfort of having this in place will be the biggest motivator for Levi. Additionally, having this in place is not supporting Levi's progress as he continues to have negative associations with oral input, hence the recommendation of PEG.
- It is anticipated that having the PEG will eliminate this discomfort and Levi won't be motivated to try and remove PEG. It will also allow for pressure free mealtimes and positive engagement with food.
- We can of course advocate for behaviour management plan funding in the new plan, just in case, however hopefully this will not be required.

Feel free to contact Ellen if you have any further questions about the nasogastric tube, PEG or feeding history.

Do you have any feedback or questions regarding the information in our Functional Assessment for Levi? We will also be sure to send you Levi's Therapy Service Summary ahead of his plan review, containing all of his progress over the last 12 months and recommendations for next plan.

Kind regards,

Bridget Darragh

Hi Bridget,

Thank you so much for your time today via phone and thank you for the requested supports Levi currently sees.
As promised, I would like to share some documents regarding Levi, to ensure the transparency with all supports in place for Levi.

If I can kindly request any reports you may have to ensure all reports marry up together when going for this upcoming review. Happy to assist when needed as I relay with the NDIS everyday and know the space very well.

I have attempted to reach all the ladies in the email today, and unfortunately could not get through. Please dismiss the voice message I have left as Bridget got back to me with all information as you can see below.

If you have any questions or queries, please don't hesitate to ask ??

Subject: ATTENTION - Debbie Smith

Hi Debbie,

Thank you for taking my call today regarding my participant Levi. As discussed via phone I have a few concerns and I would like to clarify the rules, regulations and laws in place for taking children on with complex disabilities in a childcare centres.

You mentioned on the phone about the below, and if I can kindly request more information - Identifying medical conditions Medical management plan by regulations Risk minimization plan Communication plan

Also discussed was the 1:1 supports Levi has from an registered nurse when Levi attends the daycare facility. What is the policies around this and should the daycare be more involved since the service booking is with the childcare centre?

Thank you for your time today, this is highly appreciated.

12/05/2021Terri Robertscreated a note:

daycare and support workers that she wants Levi to be involved with other children as this increases his social interaction. Concerns have been raised on the bais of a new support worker giving feedback from one day on the job. Tracy assigned support worker has never passed on concerns and due to the conflict of interest we are aware of now in the childcare centre. This has been raised due in concern of Levi. Jerusha then began to discuss the tension in the daycare and Chinese whispers in the work place. SC stated if anyone gives Jerusha a bad look or approaches in any unprofessional way to contact SC immediately to discuss with childcare centre.

Further in to conversation with inkram, inkram advised no support has been incorporated in to the daycare with taking Levi on with a disability. Staff do not uphold the correct qualifications to fully support and understand Levi's needs. This comes down to neglect in the childcare centre. Due to all information above, Jerusha was kept in the loop with all communication involved to ensure transparency. Jerusha felt it was in Levis best interest to not require Tracy services no longer a she feels communication should have been reported weekly. SC has assigned new SC Inkram to Levi moving forward. Awaiting for response on availabilities.
Jerusha has been advised to not pick calls up from Tracy as she is becoming very aggressive with her responses. This is extremely unprofessional and FFG ensure participants are our number 1 focus.

Dear Vida
Now it's becoming clearer.Jerusha is obviously feeling bad and hasn't actually told me it was their choice.Its a case of Chinese whispers.She texted me yesterday evening, saying has Terri rang you to explain about you not coming to DAYCARE,I said no not heard from anyone.
So that is why I emailed you Vida.I then texted Jerusha and said it's all fine I know why now,it's because my daughter works at the centre.She then replied ,no that's not the reason ,it's to do with the report..ect.
I said Jerusha please don't worry,at the end of the day,it's what's best for Levi.He will benefit from both of us looking after him ,as we have different ways and skill sets ,so it will be a win win for Levi! so it has to be a positive.
So all I'm saying now is ...communication..its a wonderful thing..
Kind Regards Tracy

done anything wrong.

It is not a reflection of your work. Please understand the NDIS guidelines. The participant chooses who, what and when they want supports. We do not discuss issues & complaints raised at frontline staff level due to privacy and confidentiality.

Furthermore in future please email terri or our service manager Leah regarding shift queries as only serious concerns are raised with myself and once already gone through the correct channel.

I have ccd Leah here for future communication with you.

Kind Regards,
Vida
