25/03/2022	Ally oleksuik	15 minutes	General Notes	introduced myself	Maddy and I have already met but I sent her a quick email to let her know that I am now in the office and that if she needs anything to give me a call	$21.41
17/03/2022	Sally See	15 minutes	Phone Call / SMS	Assistance with AAT statement pt2	As I had not received a response back regarding the AAT hearing statement, I texted Maddie and she sent me a list of reasoning as to why she does not believe she require a guardianship.	$16.27
16/03/2022	Sally See	45 minutes	Meeting	Assistance with AAT statement	** Large Note printed below.	$48.82

Maddie has a AAT hearing on Monday 21st March. I was directed by Vida to assist Maddie with her statement for her upcoming hearing.
Maddie came into the office and told me she does not know what to say and does not know what was said in the previous hearing which led her to have a guardianship. She is quite persistent on knowing what was said in the previous hearing so she could counterattack back. Unfortunately, as I do not know anything about the previous hearing I could not comment and provide much help.

Maddie kept saying that Vida would know best about her circumstances and situation and had asked me to ask Vida instead of talking to Maddie. I had mentioned to Maddie that I would prefer to speak to her directly as it is always best to receive information from the original source. I said "what I find important may not be important to Vida and vice versa". She was still reluctant to talk and sat uncomfortably, but I still pushed her as this is essential for her hearing.
These are the points that she mentioned as to why she does not require a guardian:
- Dad did this as dad does not agree with her choices
- Does not qualify for a guardianship (except for mental health reasonings)
- Dad has always been controlling since she can remember
- Dad lied about being okay with her moving out
- Does not want her to have control
- Only knew 4 days prior before the prev hearing.
- he does not like the choices he makes (repeating)
- his perspective: more saving and less spending
- he's judgemental and she does not want to be controlled by him anymore
- not this controlling towards her siblings
- mental health has gotten worse since this guardianship
- previous guardian was not nice and has since been fired. (he cancelled the SIL application)
- Vida called the police (as per case notes) as ad had gotten physically aggressive (aggressively pushed the door open and insisted that Maddie speaks to the guardian)

In between the points, Maddie kept insisting that I speak to Vida instead as Vida knows best. She was clearly uncomfortable and did not want to speak to me. She suggested that I send her a list of questions which would be asked during the hearing so that she would know what is expected of her. I told her I do not know the questions as they defer hearing to hearing, but I believe that the main question that they would come back to is why she believe she does not require the guardian. She requested that I send her a list of questions which would be asked and she would respond via the email.
