I have told Meghan that i will Speak with Vida to see if either Myself or a SW can take Meghan. I have spoken with Vida and she has asked that i contact Brodie to look for a SW to take Meghan, i have called Brodie and she has state that she has already sent out multiple emails and SMS's to SW's for other Participants today and none have gotten back to her. I have also tried to call Janine (ASM) in regards of what i should do next as we do not have a lot of options left. I have told Vida this and she has requested that i call Ikram from TCD to see if she can assist with Meghan. I have Called and spoken to Ikram about a SW for Meghan, Ikram has stated that she has found a SW for Meghan and that they are on there way to the Safety Bay house now. I have given a letter to Meghan to Give to the Nurses at Fiona Stanly Hospital requesting that they call myself to give a background and update them on why Meghan is feeling the way she is. 01/04/2022	Alex Bowers	1 hr	General Notes	Checked in with Meghan	** Large Note printed below.	$65.09

I have gone in a couple of times to check on Meghan and she if she has changed her Mind about going to the hospital as i am quite concerned about her health.

Two separate times Meghan has decided to go to hospital and then with in Minuets of her making the decision she has refused to go, I have explained to her that it is my DUTY OF CARE to make sure she is ok and that i need to take her if she is not feeling well due to her Heart.

She has stated that she will wait for Rahela to come and see Meghan, If Rahela tells Meghan that she is to go to Hospital she will let me take her. I have informed Meghan that i need her to allow me to take her or i will have to call an Ambulance for her, she stated that this will make this worse.

I explained to Meghan that she needs to go to the hospital as the GP will not be as comprehensive with there tests as the Hospital will be. Meghan has stated that she is afraid to go to Rockingham Hospital as she has been treated quite poorly by the staff there. I have offered to take her to Fiona Stanley as she has not been there before as far as i am aware.

Meghan has stated that she will still wait for Rahela to come and see her before Meghan Makes a final decision. if Rahela States that Meghan is to go to Hospital i will be taking her. If meghan refuses i will call an ambulance as this is my Duty of Care.

During all of this i have tried to organize with Brodie from the Hive, for Donna the SW to attend the Hospital with Meghan, Unfortunately Donna is unavailable today as she has her own DR's appointment to attend.

I have also tried to call Ability Psychology to cancel todays appointment as this is what Meghan had asked me to do at the time of her asking me to take her to hospital before she changed her mind and refused to go. i could not get through to them but a voice mail has been left requesting for them to call myself back. I still have not heard from them.

I have Tried to call Vida to Update her on the situation but was unable to reach her at this time.

I have asked her how she is feeling, Meghan has told me that her heart is hurting and feeling odd, she is a bit light headed, here ears are ringing and her left arm is numb and has been painful on and off for the last couple of days. I have told meghan that i think it is best that i take her to the hospital as they will be able to assist Meghan with finding out what is happening with her heart better then what the GP will be able to do. she has Agreed to let me take her. I have called and Spoken to Vida about this and she has told me to go with Meghan as there are no SW's in the house today. I have then gone back to speak with Meghan and to let her know what we should do. Meghan has requested that she wait untill after 12pm today as she has an appointment with Her Psychologist Rahela. 10/03/2022	Sally See	30 minutes	General Notes	Checking in	As housing manager, Elanor, had always been the person to assist Meghan throughout her daily routines, Meghan was unaware of the time and location of her psychiatry appointment and was visibly distressed when Alex (SC) and I had advised Meghan that Elanor was not in today. Vida had advised Alex and I that her appointment was telehealth at 11am and that we would be there to assist her with her appointment. Alex, Vida and I attempted to find Meghan around the house but to no avail. When Vida was leaving, at approximately 1045am, I received a call from Vida that Meghan is coming through the driveway with her bicycle and requested that I advised Meghan that her appointment is telehealth. I managed to catch Meghan when she was in the garage and advised her of such. She then had a meltdown, screamed and swore at me stating that I was the third person to advise her of such, and slammed the door in my face. She came into the office 2 minutes later to apologise for screaming at me. I attempted to calm her down by talking about dogs. Support Worker Coordinator, Brodie advised that she had received a handover from Elanor and would be attending the meeting with Alex and Meghan. this morning i assisted meghan with her Tele health appointment as she does not like talking to the Psychiatrist.

Meghan was very helpful with letting me know what she wanted to tell the Psychiatrist about how the Medication has been helping her.

Meghan started to get a little agitated with the meeting as we where waiting for over 30 minuets for the appointment to start after the planed start time and she could not fully understand the Psychiatrist over the phone and this was bothering her.

With Meghan's permission i spoke to the Psychiatrist on her behalf and made sure everything i said as correct with what meghan was wanting to say. everything the Psychiatrist would ask, i would then say it again to meghan so she could understand, i would then ask the Psychiatrist if he heard what Meghan had said and i would repeat it if he did not hear her. Meghan was happy with this as she does not like to talk to MEN normally but has said that she trusts me and i am not a threat to her.

During the meeting the Psychiatrist has organized a change of dosage for the medication that Meghan is taking and has also sent a new script to the Malibu pharmacy. the dosage has been pushed up to 100mg rather then 50mg of LARGACTIL that Meghan was on. she can take this in a liquid form as this is a faster acting version, or she can have the 4 tablets of 25mg - 3 times a day. i have explained this to meghan and she aggress that it may help her as she has not been getting any side effects of either the liquid or tablets.

Meghan was concerned about how she will pay for the medication as she does not have a lot of money her self, i have told her to leave it with me and i will organize this with Elanor as Eleonor has organized a payment plan with the Financial Counsellor.

after the tele health meeting i sat with meghan and discussed some of her concerns with herself and how she is coping at the moment, Meghan has told me that she is ok and getting better but also dose not feel like she is being supported as much as she would like. i have taken note of this and have spoken with Elanor as she is the housing manager for the safety bay house and will be able to assist myself with this concern.

Meghan contacted HM Elanor via text at 6.30am stating that she had been screaming all night and could not control her body thrashing. Meghan stated that she wanted to go to the gym but her feet were too sore, HM Elanor suggested that Meghan rest and let her body heal today.
Meghan stated that she would still attend the phone meeting with the JAC Psychologist at 10 am and that she would explain how she was feeling when she got there.
HM Elanor arrived at the office and heard noises coming from Meghan's open bedroom window/bathroom.
HM Elanor and SC Alex went into the main house to complete a welfare check. Meghan was curled up on the floor with a towel wrapped around her and she was soaking wet. Meghan was moving her jaw in an unusual manner, she then stated that 'her heart was hurting' and she was cramping.
Meghan crawled on her knees back into the shower.
HM Elanor phoned Vida to advise that Meghan requires an ambulance, Vida asked that a SW take her to the hospital. Meghan declined to attend the hospital.
HM phoned MHERL, Clinician advised to call for an ambulance immediately.
SC Alex, checked Meghan's vitals. Ambulance called. Information provided to operator.

03/02/2022	Alex Bowers	3 hrs	General Notes	Duty of care situation	** Large Note printed below.	$195.27

this morning our housing manager (Elanor) sent myself a message asking me to call the other client that lives here at the SIL house as Meghan told her that she was up most of the night screaming due to the situation yesterday (please refer to notes from 02/02/2022) due to this she has not had her medication as she has thrown it up both times she has tried to take it last night.

a little later Elanor was out side and heard something coming from Meghan's area, Elanor has come in side and asked me to come with her as Meghan was crying and screaming. we have found her on the floor of the shower fully clothed with cold water running over her, Elanor was asking Meghan if she was in pain and to try to talk to us, Meghan would not respond with words just moans of pain and crying. , Meghan was quite pale, was not breathing very well and was complaining of her heart hurting and having cramping all over her body we have called Vida to ask if we can call an ambulance, we where asked by Vida to try and take her in our own car. Meghan refused this. Elanor has then called MHERL and they told her to call an ambulance.

during this, i have gone to check Meghan heart rate and i could not get a solid number as her pulse was quite weak.

once we where told to call the ambulance from MHERL, I have called Vida straight away to tell her this is what we have been informed to do for the safety of our client and staff. Vida has then said to call the ambulance.

I have called 000 and requested an ambulance, wile on the phone with the operator, Elanor and myself have informed them of the situation and how Meghan will most likly react to having the Paramedics come to check her. the operator has asked us to keep the defibrillator close by.

Once the Ambulance arrived they went straight to Meghan with Elanor present. they have checked over Meghan's observations and they where all normal at this time. during the paramedics checking over Meghan, she has had a possible PTSD moment as she kept telling the male Paramedic to stop and go away. she has then stood up out of the chair she was sitting in yelling at them to stop, and has then sat down on the floor curling her self up in to a corner. the male paramedic has then offered to leave and Meghan agreed. the female paramedic finished checking over Meghan and suggested to my self that we try and requested a PRN for Meghan's current medication as she is on quite a small dose once a day and this may help with her possible PTSD as mentioned by the Paramedic. the paramedics have stated that she needs to have some hydrolyte, water and try to lay down and relax for the day.

once the paramedics have left i sat with Meghan and told her i will stay until she was ready to get up a

nd try to go to her room. she has slowly gotten up and i offered to help her, she said she was fine. Meghan then stood there looking confused and said to me "i don't know what to do" I comforted her and said "its ok try and go lay down, i will get you some water and i will let Elanor know that you are trying to rest" she said thank you and i left her to rest.

i have now spoken with Elanor and she has gone and spoken with Meghan about why we needed the ambulance, this has calmed her down a little as she understood we are only trying to help her.

I attempted to call Wellard Medical centre and left a message for them to call me back. Brie (Practice manager) called me back and explained that the doctor had entered a task in the system incorrectly and the text to Meghan was an error. I had a lengthy phone conversation with Brie about the need for the doctor to assess Meghan's Medication with reference to suitability for a depot, as well as in light of Meghan's psychiatric needs, as per previous email that was sent and re-sent this week. I then had multiple calls with Meghan to explain what was happening and to discuss her concerns with living in the Safety Bay house. Meghan feels unsettled having support workers come into the house to do the cooking and cleaning, she finds it intrusive. Elanor advised that Meghan quickly becomes unregulated when things start to overwhelm her. Concerne She stated that she would prefer Access Housing and to live independently. SC Rachael and HM Elanor discussed that the staff are there to complete a job and that Meghan does not require to interact if she chooses not to. HM Elanor explained to Meghan that this arrangement is very similar to St Bart's in which a cleaner would come in to clean all communal areas within the accommodation unit. SC Rachael and HM Elanor explained to Meghan that there will be Support Workers attending the house on a regular basis in the future to provide support to all residents. Meghan stated that she would prefer assistance with obtaining a Homeswest or Access House as she would like to live independently. 10/12/2021	Rachael Thomas	1 hr	General Notes	call to Rockingham Kwinana Mental Health Service	SC Rachael called RKMHS requesting to speak with Mark Cooper (Social Worker) regarding a referral that had been made for Meghan to have DEPOT instead of weekly medications. The receptionist explained that Meghan is no longer an active client (Josepehine at St Bart's explained previously that Meghan refused to answer their calls). As Meghan is no longer a client they were unable to put me through to Mark and instead suggested that Triage would call me back. Contact details were left. Triage then called me back and we discussed the issues that Elanor had previously encountered when dealing with their service and in trying to get the DEPOT referral initiated and actioned. Numerous attempts have been made previously to contact Mark (Social Worker) however he was unable to be reached and was never available. Phillip (Triage) advised that another way to arrange this would be to contact the GP Dr Chabani and get her to contact Dr Ahmed by phone to arrange, as the DEPOT could be done by a GP without the need for another referral.	$100.14

SC Rachael and Elanor attended St Bart's Residence in Medina to meet with Meghan and the St Bart's Recovery Support Worker, Josephine. Discussed Meghan's circumstances to gain a full picture of her support needs:

Meghan's phone is still not working - Elanor will follow up with Director.

SC explained that the Safety Bay House is almost ready and that she could start thinking about moving in asap, however there is only a dining table there at the moment. Will need to organise support worker to assist with the move.

Megan needs her gym membership to be funded in the plan as this is the only thing that keeps her grounded and motivated.
Megan disclosed that she does not have a relationship with her mother who lives in Rockingham, and said that some of her household belongings are there but she is unable to get them as her mother will not let her in. SC stated that we could enlist a support worker to help move her belongings. Meghan will advise.

Meghan is also waiting for Dr Chobani's referral for DEPOT to be actioned by Mark Cooper at Rockingham/Kwinana Mental health. As it currently stands Meghan has to pick up her meds once per week on a Friday, however this referral would enable the meds to be injected once per month instead. This referral needs to be followed up as it was sent over a month ago.
The psychologist's report needs to be received so that Meghan can apply for the Disability Support Pension - follow up
Transport is not included in this plan and needs to be followed up with the NDIA and any enquire about backpayments.
Meghan also has a medical exemption from her Job Searches with Status which Centrelink are saying they do not have despite Elanor (the previous case manager at St Bart's) confirming that she sent them through. Advised Meghan to book an appointment with a social worker at Centrelink to assist her with the DSP application.

Meghan has completed a Cert IV in Fitness and intends to complete a Cert IV in Mental Health next year so that she can be a personal trainer to those with disabilities. She enjoys doing Muay Thai and regularly competes in triathlons. She is interested in perhaps doing an Auslan course or online course -Strategix Rockingham.

Meghan will be moving into the Safety Bay house very soon.
