Afternoon Ikram,

Hope you are well, it was a pleasure to see you today and just to give you an update that the referral form for Megan Goodwin has completed and submitted. There is a lady with the name of Elanor from ST Bart's could you please arrange a contact with her first regarding Megan to have more details for a better support.

As we talked together today, Megan is after a female support worker between 30 to 50 years to be available and not a communicative person due to her disability and if you could assist us to organise someone to be available for her every fortnight to grab her medication will be much appreciated. But could you please before you move forward with her feel free to contact Elanor on 0412933174 to check out with her.

Appreciate your time and assistance.

Hi Geri,

I would like to advise the difficulty at the moment with approaching anything regarding the NDIS. Meghan is becoming to overwhelmed to even have this discussion. I have been relaying directly with Elanor.

Its extremely difficult to be scheduled in with Meghan with interrupted phone calls on conversations she doesn't understand. In this situation, can I kindly ask you go ahead with the plan as I am consented to speak and act on the behalf of Meghan?

I hope you can understand these circumstances.
Thanks Geri and thank you for your patience.

Subject: Complaint - Meghan Goodwin
Importance: High

Good Afternoon,

I would like to advise my concerns regarding the recent check in of Meghan Goodwin on 1/10/2021 late afternoon.
Meghan put her head through a door and knocked herself unconscious 1/10/2021.

I called the department of Mental Health to advise of the concern and risk of my participant Meghan Goodwin who is receiving NDIS funding for her disabilities listed below.

- Autism Level 2
- Emotional Personality Disorder
- ADHD
- Cognitive impairment

I advised Meghan was due for arrival from self-harm and needed to be assessed. I advised as the appointed support coordinator how severe Meghan's mental health decline was.
I requested the email of this nurse and the email bounced back - adha.balan@help.wa.gov.au. I advised all most recent reports including clinical psychologist report was being sent through to advise the current and most recent reports of Meghan. Adha advised she will advise the team and be prepared for Meghan's arrival via Ambulance.

I called back due to the bounce back of emails to request the correct email address and spoke with a nurse called Thomas Burton due to shift change. Thomas advised they will be checking Meghan out of the hospital as they have no concerns of her wellbeing. I stated the accommodation Meghan was staying at, St Barts have refused to accommodate Meghan. St Barts stated, due to the episode of Meghan's breakdown, they are not equipped and under staffed to assist with Meghan's current mental health and outbursts. I advised of the previous suicide attempts and how high risk this participant is and requested the correct assessments be conducted. Thomas then stated " well, what are you as the NDIS doing about this". I advised Thomas, the NDIS does not fund for crisis accommodation and due to the current mental state of Meghan this falls under the Duty of Care to the hospital from the recent self-harm. I also advised the severity of Meghan's mental health once again and this could resort in Meghan hurting herself even more after discharge. Thomas responded by laughing down the phone. He laughed and stated, can you put that in writing? I then requested to speak with a upper Manager as I felt Thomas's tone and response was completely unprofessional and quite frankly arrogant. Thomas responded and stated " hmm, properly not". Thomas not only was unprofessional, but declined to pass the phone on to his upper management. Thomas put my participant at severe risk on shift, I would hope this treatment does not go towards any other person with or without a disability in your hospital.

n continued to contact Myself regarding Meghan, when the first phone call was finished. When I answered the phone, Thomas continued to state he needed Meghan checkout out and has done all relevant testing on Meghan. I was completely honest with Thomas and stated the responses I received was extremely unprofessional to which he responded and stated “Can we just move passed this”

I requested upon check out, that the hospital are aware of no supervision of Meghan during her mental break down at return to St Barts Accommodation. Thomas was aware.
I requested a care plan upon check out, discharge paperwork and an email to advise what testing was conducted during Meghan’s visit.

I have not received any of the above. Due to the unprofessionalism, arrogance and zero response I would like this complaint to be followed up and more training to be provided to this registered nurse. If this was your daughter, mother or son, I’m sure the care factor towards this participant would not sit well with you.

Thank you for your time in reading this email and I look forward to your response.

Hi Terri

Thank you for taking my call today.

Hi Meghan

Terri kindly took my call today as I was the scheduled planner to complete the meeting. Terri advised me that there has been some changes in your life that require different types of support including exploring suitable accommodation that will meet your needs.

We discussed a proposed plan that will contain funding for your supports and I was hoping if you are happy with the proposal if I could please have you reply to this email. This will mean you won't have to go through a meeting with NDIS at this stage and Terri will be able to continue to support you.

- 10 hours of in home support each week if you need it
- 10 hours of support in the community- you can use this flexibly to assist you in what you need each day if you would like.
- Funding at a low level for transport
- Short Term accommodation to assist you with exploring different types of accommodation you may like to live in
- Support from an OT to complete a functional capacity assessment as part of the housing exploration to assist you to find suitable accommodation and support that will meet your needs
- Support with strategies to help you in stressful situations or when you are feeling overwhelmed
- Funding for Terri to continue to support you with implementation of your plan and supports as well as housing exploration
- Plan manager to pay providers on your behalf you provide support to you such as Terri

Terri will be able to assist you regarding the above if you have any questions or please feel free to email me as well.

Look forward to hearing from you soon,
