11/01/2022	Malika Dulal	4 hrs 30 minutes	General Notes	Visited Sarah	Today I visited Sarah at her apartment and stayed there for 3 hours total. Sarah was really upset because her SW - Hadisa allegedly went through her phone and took a screenshot of Sarah and Craig (guy Sarah is seeing) conversation. Sarah was furious and she said she feels like she cannot trust anybody. She said that her recent sexual assault and this has made her feel like she should self-harm and she said she just wants to disappear. I told Sarah that she does not know the full story and don't let others action eat away at her. I told her that she can talk to me about her recent sexual assault incident in whatever pace she prefers and there's absolutely no pressure to her. Sarah needed to pick up an antibiotics as she has her infection spreading throughout her gums so I took her to her usual pharmacy. She was in a chatty and jolly mood afterwards and she talked about her last birthday and that she went to the Zoo on her birthday, she showed me photographs that she took of animals in the Zoo. She also said that she would like to go to a little trip just to getaway but said that she will wait couple weeks to sort out her SW situation before she leaves for the trip. 05/01/2022	Malika Dulal	6 hrs 30 minutes	General Notes	Meeting with Sarah	Met Sarah at her apartment, when I got there she was sleeping but she woke up shortly after. She told me she has been getting only 2 hours sleep and she either falls asleep inside her closet or can fall asleep when someone is there with her. I took her to the dentist and she was highly anxious about that, Sarah told me she does not like how dentists puts objects in her mouth and she told me it's highly triggering for her and that she might completely shutdown and in that case she cannot be alone. I told her I will be with her throughout her dentist appointment up till 6:30 but we need to arrange a support worker to come after that if she cannot be alone. When we went to the dentist, she was really scared and was flinching with every touch or loud sound. However once her x-ray was taken, the machine to generate results wasn't working so they were not able to go ahead with it. She was told to come the next day. When at her place, sarah opened up about the assault she endured last August at her rental place in Baldivis. She told me from 2nd August till 29th August (during her entire stay) she copped abuse from the landlord every single day. She said this guy and the way he came across resembled her traumatic memory from her childhood. She told me she never told her SW then or the health care workers about the abuse she was going through.	$423.09

03/01/2022	Malika Dulal	4 hrs 30 minutes	General Notes	Meeting with Sarah	Today Sarah was alone in her apartment when I got there, she told me she had just come back from a movie with her SW - Penny. Sarah told me yesterday she was having issues with her legs and as a result she fell and hit her mouth on the kitchen counter on her apartment and broke a tooth- she is going to visit a dentist tomorrow. Sarah needed to pick some medicine from a pharmacy at Baldivis, so I took her to that Pharmacy. Sarah also opened up a lot about her sexual assault she copped back in August 2021. She told me the guy was of a middle east background (she was renting a room off of him), so the first encounter was when he told Sarah to go change as he did not like that she was wearing shorts. When she did, he went on to flip her top off to see if she had or not, he also kept touching her in her hip as he walked past, that was very inappropriate but according to Sarah she thought maybe she is reading too much into it so she did not tell the whole detail to her psychologists. Sarah regrets not opening up to her therapist and I assured her that it's normal for women to downplay it some times and not to be too hard on herself. She also showed me some of the funny videos her mom has been sending her and she told me that she is going to give her mom a call after I leave. After getting back from the pharmacy, we chatted for a little bit and I left after that.	$292.91

I met Sarah at her apartment today at 1pm. She told me that she is upset at the hospital as they did not properly diagnose her (diagnosed her with neurological functional disorder) instead of dystonia. She also mentioned that the discharge summary says that "the carers told hospital staff that Sarah is pretending to be sick and the carer is also concerned about the baby's safety".
After that she wanted to talk about her traumatic events in her life. She told me that she was pregnant at the age of 19 as a result of rape by her step-dad. She had planned to move to WA after getting pregnant and had been living away from her mom and step-dad but her step-dad tricked her into coming to the house (by saying something horrible happened to her mother) and when she got there, he physically assaulted her and as a result she went on a early labour and ended up losing her baby.

When she moved here in WA she was homeless for couple months and she was able to find a refuge. Shortly thereafter, she was admitted to psych ward (over a year) as her mental health was really deteriorating, she had suicidal ideation and was self-harming a lot. She then was transferred to a second psych ward, where she was abused by the owner and when she fought back she was not allowed to stay there anymore.

She then rented out an apartment with other people from the psych ward, although it was really difficult to live there as these people were abusing alcohol and drugs. After that she found this one lady named Jackie who allowed her to live at her farm at South Lake and Sarah's responsibility was to look after her farm. She then rented a place out with her friend named Nicole, Sarah told me somehow her step-dad found out where she was living and her step-dad would send people to abuse her. This would occur only when Nicole was out.

Sarah stated that she even went to the police but when the police.investigated her case and contacted one of Sarah's previous psychologist- the psychologist told the police that "since Sarah had a very trumatic childhood, even when she is not being abused, she feels like she's been abused". So police dropped the case.

Sarah was then hospitalised after that and once she was out of the hospital she rented a room out at Baldivis. There was a family living there and the guy also abused her, occurence of this event has been noted on an OT's assessment..

Sarah made some statement about her parents:

- Sarah stated that since her mom didn't wanted her, her mom and step-dad only saw her as a money-making machine
- Sarah stated that her mom and step-dad would sell her nude pictures for money when she was as little as 3 years old
- she never got presents for Christmas or birthday's, or party for that matter
- t

here were other adults involved in this, who would like to abuse children and one day Sarah was thrown a birthday party where these adults came and abused and assaulted (sexually, physically) her
- she said that she has never really liked sharing her story out of fear for getting mocked or not believed.
-she once told her psychologist and then psychologist told her these things don't happen in real life and only happens in the movies

Sarah also told me that she is seeing a guy named 'Craig' , who she met online. She said he is nice for the most part but is frustrated as well because they have not gotten physical.

Additionally she said that she got pregnant at the age of 12, 15 & 16 by her step-father and she went into an early labour and ended up losing the baby.
